

Ocean Power Technologies Pre-Releases Preliminary Financial Results for Second Quarter Fiscal 2025

December 2, 2024

Confirms pathway to profitability in late 2025 based on record quarterly revenues and materially reduced expenses

MONROE TOWNSHIP, N.J., Dec. 02, 2024 (GLOBE NEWSWIRE) -- **Ocean Power Technologies, Inc. ("OPT" or "the Company") (NYSE American: OPTT)**, today announced preliminary financial results for the second quarter ended October 31, 2024 (Q2FY25). The preliminary results included in this press release are subject to change and have not been audited or reviewed by our independent auditor. The Company expects to file its second quarter financial results and update in mid-December.

Preliminary Q2FY25 Financial Highlights

(All figures are preliminary, unaudited, and subject to finalization):

- **Revenue:** Estimated to be greater than \$2 million, compared to \$0.9 million for the same period last year, representing a more than 2x increase.
- **Net Loss:** Anticipated net loss of approximately \$4 million, compared to \$7.2 million in the prior year period and representing a year-over-year decrease in net loss of more than 40%.
 - Operating expenses have been reduced by approximately 40%, including reduced external expenditures leading to a material reduction in third party spend.
- **Cash Used in Operating Activities:** Estimated to be less than \$4.7 million, compared to \$7.5 million in the prior-year period and representing a year-over-year decrease of approximately 40%.

Business and Operational Highlights

- During Q2FY25, the Company completed the second set of exercises of the previously announced follow-on contract as a subcontractor to EpiSci and successfully deployed several WAM-V autonomous surface vehicles during the Mission Autonomy Proving Grounds (MAPG) as part of Project Overmatch. Project Overmatch is a United States Navy initiative aimed at achieving a seamless and highly integrated warfighting capability by leveraging advanced data networks, artificial intelligence (AI), and machine learning. Under this contract, OPT continues to ruggedize and enhance the operational capability of its autonomous maritime technologies to support the U.S. military and its allies. The first set of exercises was concluded over the summer and the completion of these most recent exercises contributed to the revenue recognition noted above.
- The Company delivered several vehicles to customers in Latin America for commercial survey services.
- The Company signed its first service contract for multi-year support services for vehicles.
- Since the end of the quarter, OPT has received the final permits to install the previously announced PowerBuoy equipped with AT&Ts 5G equipment in Monterey Bay.
- The Company reaffirms its previously issued guidance that it believes it will reach profitability (excluding unanticipated extraordinary expenses) during the fourth quarter of calendar 2025. Performance to date reflects strong demand for products, effective cost management, and progress in strategic initiatives. Recent achievements, including recently announced partnerships and operational milestones regarding successful exercises and continued customer deliveries, further support the Company's trajectory toward achieving this stated objective.

Philipp Stratmann, OPT's CEO and President, stated "We believe our preliminary results underscore the success of our strategic initiatives, such as focusing on national security and critical infrastructure solutions, coupled with targeted international expansion and our ability to execute for our customers. We have seen a recent uptick in demand for our services domestically and overseas and will continue to convert our pipeline to bookings and ultimately to revenue through future deliveries and additional opportunities to deploy our assets, and we remain committed to delivering long-term value for our shareholders. The success of our most recent quarter leads us to reconfirm our pathway to profitability in late calendar 2025."

CONFERENCE CALL AND WEBCAST INFORMATION
