

UNITED STATES SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

Form 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the Quarterly Period Ended January 31, 2015

Or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the Transition Period From _____ to _____

Commission file number: 001-33417

OCEAN POWER TECHNOLOGIES, INC.

(Exact Name of Registrant as Specified in Its Charter)

Delaware

(State or Other Jurisdiction of Incorporation or Organization)

22-2535818

(I.R.S. Employer Identification No.)

1590 REED ROAD, PENNINGTON, NJ 08534

(Address of Principal Executive Offices, Including Zip Code)

(609) 730-0400

(Registrant's Telephone Number, Including Area Code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer
(Do not check if a smaller reporting
company)

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of February 28, 2015, the number of outstanding shares of common stock of the registrant was 18,354,611.

OCEAN POWER TECHNOLOGIES, INC.
INDEX TO FORM 10-Q
FOR THE THREE AND NINE MONTHS ENDED JANUARY 31, 2015

**Page
Number**

PART I — FINANCIAL INFORMATION

Item 1. Financial Statements (unaudited):	
Consolidated Balance Sheets as of January 31, 2015 and April 30, 2014	3
Consolidated Statements of Operations for the Three and Nine Months Ended January 31, 2015 and 2014	4
Consolidated Statements of Comprehensive Loss for the Three and Nine Months Ended January 31, 2015 and 2014	5
Consolidated Statements of Stockholders' Equity for the Nine Months Ended January 31, 2015	6
Consolidated Statements of Cash Flows for the Nine Months Ended January 31, 2015 and 2014	7
Notes to Consolidated Financial Statements	8
Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations	19
Item 3. Quantitative and Qualitative Disclosures About Market Risk	31
Item 4. Controls and Procedures	31

PART II — OTHER INFORMATION

Special Note Regarding Forward-Looking Statements

We have made statements in this Quarterly Report on Form 10-Q that are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements convey our current expectations or forecasts of future events. Forward-looking statements include statements regarding our future financial position, business strategy, budgets, projected costs, plans and objectives of management for future operations. The words "may," "continue," "estimate," "intend," "plan," "will," "believe," "project," "expect," "anticipate", "goal" and similar expressions may identify forward-looking statements, but the absence of these words does not necessarily mean that a statement is not forward-looking.

Any or all of our forward-looking statements in this report may turn out to be inaccurate. We have based these forward-looking statements largely on our current expectations and projections about future events and financial trends that we believe may affect our financial condition, results of operations, business strategy and financial needs. They may be affected by inaccurate assumptions we might make or unknown risks and uncertainties, including the risks, uncertainties and assumptions described in Item 1A "Risk Factors" of our Annual Report on Form 10-K for the year ended April 30, 2014 and elsewhere in this report. In light of these risks, uncertainties and assumptions, the forward-looking events and circumstances discussed in this report may not occur as contemplated and actual results could differ materially from those anticipated or implied by the forward-looking statements.

You should not unduly rely on these forward-looking statements, which speak only as of the date of this filing. Unless required by law, we undertake no obligation to publicly update or revise any forward-looking statements to reflect new information or future events or otherwise.

Ocean Power Technologies, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
(Unaudited)

(1) Background, Basis of Presentation and Liquidity

a) Background

Ocean Power Technologies, Inc. (the “Company”) was incorporated in 1984 in New Jersey, commenced business operations in 1994 and re-incorporated in Delaware in 2007. The Company develops and is seeking to commercialize proprietary systems that generate electricity by harnessing the renewable energy of ocean waves. The Company markets its products in the United States and internationally. Since fiscal 2002, government agencies have accounted for a significant portion of the Company’s revenues. These revenues were largely for the support of product development efforts. The Company’s goal is that an increased portion of its revenues be from the sale of products and maintenance services, as compared to revenue to support its product development efforts. As the Company continues to advance its proprietary technologies, it expects to continue to have a net decrease in cash from operating activities unless and until it achieves positive cash flow from the planned commercialization of its products and services.

b) Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included. The interim operating results are not necessarily indicative of the results for a full year or for any other interim period. Further information on potential factors that could affect the Company’s financial results can be found in the Company’s Annual Report on Form 10-K for the year ended April 30, 2014 filed with the Securities and Exchange Commission (“SEC”) and elsewhere in this Form 10-Q.

c) Liquidity

The Company has incurred net losses and negative operating cash flows since inception. As of January 31, 2015, the Company had an accumulated deficit of \$161.5 million. As of January 31, 2015, the Company’s cash and cash equivalents and marketable securities balance was approximately \$19.9 million as compared to \$28.4 million at April 30, 2014. Based upon the Company’s cash and cash equivalents and marketable securities balance as of January 31, 2015, the Company believes that it will be able to finance its capital requirements and operations through at least the first calendar quarter of 2016. In addition, as of January 31, 2015, the Company’s restricted cash balance was approximately \$0.6 million, which reflects a significant decrease from the Company’s restricted cash balance of approximately \$7.3 million as of April 30, 2014. See Note 2(f).

During 2014 and 2013, the Company continued to make investments in ongoing product development efforts in anticipation of future growth. The Company’s future results of operations involve significant risks and uncertainties. Factors that could affect the Company’s future operating results and cause actual results to vary materially from expectations include, but are not limited to, risks from insufficiencies of capital, technology development, scalability of technology and production, dependence on skills of key personnel, concentration of customers and suppliers, performance of PowerBuoys, deployment risks and laws, regulations and permitting. In order to complete its future growth strategy, the Company will require additional equity and/or debt financing. There is no assurance that additional equity and/or debt financing will be available to the Company as needed. If sufficient financing is not obtained by the Company, we may be required to further curtail or limit certain product development costs, and/or selling, general and administrative activities in order to reduce our cash expenditures.

In January 2013, we filed a shelf registration statement on Form S-3 (the “S-3” or the “S-3 Shelf”). The S-3 Shelf was declared effective in February 2013. Under the S-3 Shelf, in June 2013, we established an at the market offering facility (the “ATM Facility”) with Ascendant Capital Markets, LLC (the “Manager”) via an At the Market Offering Agreement (the “ATM Agreement”). Under the ATM Agreement, we offered and sold shares of our common stock from time to time through the Manager, acting as sales agent, in ordinary brokerage transactions at prevailing market prices. Under the ATM Facility, during fiscal 2014, we issued 3,306,334 shares of our common stock at an average price to the public of \$3.02 per share, receiving net proceeds from the ATM Facility of approximately \$9,698,000.

Also in fiscal 2014, we entered into an underwriting agreement (the “Underwriting Agreement”) with Roth Capital Partners, LLC (the “Underwriter”) on April 4, 2014, with respect to the issuance and sale in an underwritten public offering (the “Public Offering”) of an aggregate of 3,800,000 shares of our common stock at a price to the public of \$3.10 per share. The Underwriting Agreement contained customary representations, warranties and agreements by us, customary conditions to closing and indemnification obligations, and a 90 day lock-up period that limited transactions in our common stock by us. Net proceeds from the Public Offering, which was completed in early April 2014, were approximately \$10,828,000.

Ocean Power Technologies, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
(Unaudited)

Form S-3 limits the aggregate market value of securities that we are permitted to offer in any 12-month period under Form S-3, whether under the ATM Agreement, the Underwriting Agreement or otherwise, to one third of our public float. After the February 2014 share sales, we fully utilized the ATM Agreement and reached the applicable limit under Form S-3. Of the \$40 million authorized under the S-3 Shelf, approximately \$18.2 million remains available for issuance. During the nine months ended January 31, 2015, there were no proceeds from the sale of stock under the S-3 Shelf.

(2) Summary of Significant Accounting Policies

(a) Consolidation and Cost Method Investment

The accompanying consolidated financial statements include the accounts of the Company and its majority-owned subsidiaries. All significant intercompany balances and transactions have been eliminated in consolidation. Participation of stockholders other than the Company in the net assets and in the earnings or losses of a consolidated subsidiary is reflected as a noncontrolling interest in the Company's Consolidated Balance Sheets and Statements of Operations, which adjusts the Company's consolidated results of operations to reflect only the Company's share of the earnings or losses of the consolidated subsidiary. As of January 31, 2015, there was one noncontrolling interest, consisting of 11.8% of the Company's Australian subsidiary, Ocean Power Technologies (Australasia) Pty. Ltd. ("OPTA"). OPTA owns 100% of Victorian Wave Partners Pty. Ltd. ("VWP"), which is also organized under the laws of Australia.

In addition, the Company evaluates its relationships with other entities to identify whether they are variable interest entities, and to assess whether it is the primary beneficiary of such entities. If the determination is made that the Company is the primary beneficiary, then that entity is included in the consolidated financial statements. As of January 31, 2015, there were no such entities.

(b) Use of Estimates

The preparation of the consolidated financial statements requires management of the Company to make a number of estimates and assumptions relating to the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the period. Significant items subject to such estimates and assumptions include the recoverability of the carrying amount of property and equipment and patents; valuation allowances for receivables and deferred income tax assets; estimated costs to complete for projects; and percentage of completion of customer contracts for purposes of revenue recognition. Actual results could differ from those estimates. The current economic environment, particularly the macroeconomic pressures in certain European countries, has increased the degree of uncertainty inherent in those estimates and assumptions.

(c) Revenue Recognition

The Company's contracts are either cost plus or fixed price contracts. Under cost plus contracts, customers are billed for actual expenses incurred plus an agreed-upon fee. Currently, the Company has two types of fixed price contracts, firm fixed price and cost-sharing. Under firm fixed price contracts, the Company receives an agreed-upon amount for providing products and services specified in the contract. Under cost-sharing contracts, the fixed amount agreed upon with the customer is only intended to fund a portion of the costs on a specific project.

Generally, the Company recognizes revenue using the percentage-of-completion method based on the ratio of costs incurred to total estimated costs at completion. In certain circumstances, revenue under contracts that have specified milestones or other performance criteria may be recognized only when the customer acknowledges that such criteria have been satisfied. In addition, recognition of revenue (and the related costs) may be deferred for fixed-price contracts until contract completion if the Company is unable to reasonably estimate the total costs of the project prior to completion. These contracts are subject to interpretation and management may make a judgment as to the amount of revenue earned and recorded. Because the Company has a small number of contracts, revisions to the percentage-of-completion determination, management interpretation or delays in meeting performance and contractual criteria or in completing projects may have a significant effect on revenue for the periods involved. Upon anticipating a loss on a contract, the Company recognizes the full amount of the anticipated loss in the current period.

Ocean Power Technologies, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
(Unaudited)

Under cost plus and firm fixed price contracts, a profit or loss on a project is recognized depending on whether actual costs are more or less than the agreed upon amount. Under cost sharing contracts, an amount corresponding to the revenue is recorded in cost of revenues, resulting in gross profit on these contracts of zero. The Company's share of the costs is recorded as product development expense.

Unbilled receivables represent expenditures on contracts, plus applicable profit margin, not yet billed. Unbilled receivables are normally billed and collected within one year. Billings made on contracts are recorded as a reduction of unbilled receivables, and to the extent that such billings and cash collections exceed costs incurred plus applicable profit margin, they are recorded as unearned revenues.

Most of the Company's projects are under cost-sharing contracts.

(d) Cash and Cash Equivalents

The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. The Company invests excess cash in an overnight U.S. government securities repurchase bank account. In accordance with the terms of the repurchase agreement, the Company does not take possession of the related securities. The agreement contains provisions to ensure that the market value of the underlying assets remain sufficient to protect the Company in the event of default by the bank by requiring that the underlying securities have a total market value of at least 100% of the bank's total obligations under the agreement.

	January 31, 2015	April 30, 2014
Checking and savings accounts	\$ 3,435,554	\$ 1,917,176
Overnight repurchase account	13,926,933	—
Certificates of deposits and US Treasury obligations	—	11,499,768
Money market funds	2,506,419	441,715
	\$ 19,868,906	\$ 13,858,659

(e) Marketable Securities

Marketable securities with original maturities longer than three months but that mature in less than one year from the balance sheet date are classified as current assets. Marketable securities that mature more than one year from the balance sheet date are classified as noncurrent assets. Marketable securities that the Company has the intent and ability to hold to maturity are classified as investments held-to-maturity and are reported at amortized cost. The difference between the acquisition cost and face values of held-to-maturity investments is amortized over the remaining term of the investments and added to or subtracted from the acquisition cost and interest income. As of January 31, 2015 and April 30, 2014, all of the Company's investments were classified as held-to-maturity.

(f) Restricted Cash and Credit Facility

A portion of the Company's cash is restricted under the terms of three security agreements.

One agreement is between Ocean Power Technologies, Inc. and Barclays Bank. Under this agreement, the cash is on deposit at Barclays Bank and serves as security for letters of credit and bank guarantees that are expected to be issued by Barclays Bank on behalf of OPT LTD, one of the Company's subsidiaries, under a credit facility established by Barclays Bank for OPT LTD. The credit facility carries a fee of 1% per annum of the amount of any such obligations issued by Barclays Bank. The credit facility does not have an expiration date, but is cancelable at the discretion of the bank. During the nine months ended January 31, 2015, the Company reduced the credit facility from €800,000 (\$964,656) to approximately €307,000 (\$347,525). As of January 31, 2015, there was €278,828 (\$315,633) in letters of credit outstanding under this agreement.

The second agreement is between Ocean Power Technologies, Inc. and the New Jersey Board of Public Utilities (NJBP). The Company received a \$500,000 recoverable grant award from the NJBP of which \$175,000 is outstanding at January 31, 2015. Under this arrangement, the Company annually assigns to the NJBP a certificate of deposit in an amount equal to the outstanding grant balance. See Note 6.

Ocean Power Technologies, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
(Unaudited)

The third agreement concerns letters of credit issued by PNC Bank for the benefit of the Oregon Department of State Lands for the removal of certain of the Company's anchoring and mooring equipment from the seabed off the coast of Oregon. During the nine months ended January 31, 2015, the Company substantially completed the removal activity and reduced the letters of credit from \$1,200,000 to one letter of credit of \$22,000. This letter of credit is secured by a certificate of deposit with PNC Bank.

The Company had classified the initial grant funding received from the Australian Renewable Energy Agency ("ARENA") of A\$5,595,723 (\$5,179,960), which includes an amount required to be submitted as goods and services tax (GST), as restricted cash as of April 30, 2014.

During the nine months ended January 31, 2015, the Company remitted the GST in the amount of A\$508,702 (\$470,905) to the Australian Tax Office (ATO) in accordance with local tax laws and also reclaimed this amount from the ATO during such nine month period. The Company also returned the initial grant funding received of A\$5,595,723 (\$5,179,960) and interest of A\$109,051 (\$102,061) to ARENA in accordance with the Deed of Variation and Termination of Funding Deed executed between the parties in August 2014. The Company had accrued this amount in accrued expenses and recorded this amount as restricted cash at April 30, 2014. Restricted cash includes the following:

	January 31, 2015	April 30, 2014
Current:		
Australian Renewable Energy Agency (ARENA)	\$ —	\$ 5,179,960
NJBPU agreement	100,000	100,000
Oregon Department of State Lands	22,000	845,000
Barclay's Bank Agreement	347,525	—
	<u>\$ 469,525</u>	<u>\$ 6,124,960</u>

	January 31, 2015	April 30, 2014
Long Term:		
Barclay's Bank Agreement	\$ —	\$ 996,696
NJBPU agreement	75,000	225,000
	<u>\$ 75,000</u>	<u>\$ 1,221,696</u>

(g) Foreign Exchange Gains and Losses

The Company has invested in certain certificates of deposit and has maintained cash accounts that are denominated in British pounds sterling, Euros and Australian dollars. These amounts are included in cash, cash equivalents, restricted cash and marketable securities on the accompanying consolidated balance sheets. Such positions may result in realized and unrealized foreign exchange gains or losses from exchange rate fluctuations, which gains and losses are included in foreign exchange loss in the accompanying consolidated statements of operations.

	Three Months Ended January		Nine Months Ended January	
	2015	2014	2015	2014
Foreign exchange (loss) gain	\$ (246,002)	\$ 23,448	\$ (467,909)	\$ 152,575

Foreign currency denominated certificates of deposit and cash accounts:

	January 31, 2015	April 30, 2014
Restricted	\$ 347,525	\$ 6,176,656
Unrestricted	822,862	1,232,111
	<u>\$ 1,170,387</u>	<u>\$ 7,408,767</u>

Ocean Power Technologies, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
(Unaudited)

(h) Long-Lived Assets

Long-lived assets, such as property and equipment and patents subject to amortization, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of the asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of the asset to estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of the asset exceeds its estimated future cash flows, then an impairment charge is recognized in the amount by which the carrying amount of the asset exceeds the fair value of the asset. During the nine months ended January 31, 2015, the Company reviewed its long-lived assets for impairment and estimated that the remaining useful lives, for purposes of amortizing capitalized external patent costs, should be reduced from approximately five years to one year.

(i) Concentration of Credit Risk

Financial instruments that potentially subject the Company to concentration of credit risk consist principally of cash balances, bank certificates of deposit and trade receivables. The Company invests its excess cash in an overnight U.S. government securities repurchase bank account and does not believe that it is exposed to any significant risks related to its cash accounts, money market funds, certificates of deposit or overnight repurchase account.

The table below shows the percentage of the Company's revenues derived from customers whose revenues accounted for at least 10% of the Company's consolidated revenues for at least one of the periods indicated:

<u>Customer</u>	<u>Three months ended January 31,</u>		<u>Nine months ended January 31,</u>	
	<u>2015</u>	<u>2014</u>	<u>2015</u>	<u>2014</u>
US Department of Energy	25%	50%	37%	37%
Mitsui Engineering & Shipbuilding	75%	100%	37%	18%
European Union (WavePort project)	—	(50%)	26%	27%
UK Government's Technology Strategy Board	—	—	—	18%
	<u>100%</u>	<u>100%</u>	<u>100%</u>	<u>100%</u>

The loss of, or a significant reduction in revenues from, any of the current customers could significantly impact the Company's financial position or results of operations. The Company does not require its customers to maintain collateral.

(j) Net Loss per Common Share

Basic and diluted net loss per share for all periods presented is computed by dividing net loss by the weighted average number of shares of common stock outstanding during the period. Due to the Company's net losses, potentially dilutive securities, consisting of outstanding stock options and non-vested performance-based shares, were excluded from the diluted loss per share calculation due to their anti-dilutive effect.

In computing diluted net loss per share, options to purchase shares of common stock and non-vested restricted stock issued to employees and non-employee directors, totaling 1,937,013 for the three and nine months ended January 31, 2015, and 1,581,016 for the three and nine months ended January 31, 2014, were excluded from the computations as the effect would be anti-dilutive due to the Company's losses.

(k) Recently Issued Accounting Standards

On May 28, 2014, the FASB issued ASU No. 2014-09, *Revenue from Contracts with Customers*, which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The ASU will replace most existing revenue recognition guidance in U.S. Generally Accepted Accounting Principles ("GAAP") when it becomes effective. The new standard is effective for us on January 1, 2017. Early application is not permitted. The standard permits the use of either the retrospective or the cumulative effect transition method. We are evaluating the effect that ASU 2014-09 will have on our consolidated financial statements and related disclosures. We have not yet selected a transition method nor have we determined the effect of the standard on our ongoing financial reporting.

Ocean Power Technologies, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
(Unaudited)

In August 2014, the FASB issued ASU 2014-15, *Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern*, which describes how an entity should assess its ability to meet obligations and sets rules for how this information should be disclosed in the financial statements. The standard provides accounting guidance that will be used along with existing auditing standards. The new standard applies to all entities for the first annual period ending after December 15, 2016, and interim periods thereafter. Early application is permitted. We are evaluating the effect ASU 2014-15 will have on our consolidated financial statements and disclosures and have not yet determined the effect of the standard on our ongoing financial reporting at this time.

(3) Marketable Securities

Marketable securities with initial maturities longer than three months but that mature within one year from the balance sheet date are classified as current assets and are summarized as follows:

	<u>January 31, 2015</u>	<u>April 30, 2014</u>
Certificates of Deposit and US Treasury obligations	\$ 50,000	\$ 14,493,881

(4) Balance Sheet Detail

	<u>January 31, 2015</u>	<u>April 30, 2014</u>
Accounts receivable		
Accounts receivable	\$ 18,991	\$ 308,731
Patents		
Patents	\$ 1,536,029	\$ 1,536,029

(5) Related Party Transactions

	Three Months Ended January	
	31,	
	2015	2014
Related party consulting expense	\$ 168,500	\$ —

	Nine Months Ended January	
	31,	
	2015	2014
Related party consulting expense	\$ 434,188	\$ —

In April 2014, the Company entered into an Executive Transition Agreement with George W. Taylor, who was formerly employed by the Company as Executive Vice Chairman and served on the Company's Board of Directors prior to that date. Under this agreement, Dr. Taylor will receive up to fifteen months of consulting fees at a monthly rate of \$20,000. For the three and nine months ended January 31, 2015, the Company recorded \$60,000 and \$180,000 respectively in expense relating to this agreement.

In June 2014, the Company entered into an agreement with David L. Keller, who had served as a non-executive director of the Company since October 2013. Under this agreement, Mr. Keller served as Interim Chief Executive Officer effective with the June 9, 2014 termination of the Company's former Chief Executive Officer, Charles F. Dunleavy and received a consulting fee of \$1,500 per day of services provided. Effective January 20, 2015, Mr. George H. Kirby was appointed President, Chief Executive Officer and Director of the Company and Mr. Keller resigned as Interim CEO. Mr. Keller continues to serve as a non-executive director of the Company. For the three and nine months ended January 31, 2015, the Company recorded \$108,500 and \$254,188 respectively in expense relating Mr. Keller's agreement.

(6) Debt

The Company was awarded a recoverable grant totaling \$500,000, between April 2009 and June 2010, from the NJBPU under the Renewable Energy Business Venture Assistance Program. Under the terms of this agreement, the amount to be repaid is a fixed monthly amount of principal only, repayable over a five-year period beginning in November 2011. The terms also required the Company to assign to the NJBPU a certificate of deposit in an amount equal to the outstanding grant balance. See Note 2(f).

	<u>January 31, 2015</u>	<u>April 30, 2014</u>
Total debt	\$ 175,000	\$ 250,000
Current portion of long-term debt	(100,000)	(100,000)
Long-term debt	\$ 75,000	\$ 150,000

(7) Deferred Credits Payable

During the year ended April 30, 2001, in connection with the sale of common stock to an investor, the Company received \$600,000 from the investor in exchange for an option to purchase up to 500,000 metric tons of carbon emissions credits generated by the Company during the years 2008 through 2012, at a 30% discount from the then-prevailing market rate. If the Company received emission credits under applicable laws and failed to sell to the investor the credits up to the full amount of emission credits covered by the option, the investor was entitled to liquidated damages equal to 30% of the aggregate market value of the shortfall in emission credits (subject to a limit on the market price of emission credits). Under the terms of the agreement, if the Company did not become entitled under applicable laws to the full amount of emission credits covered by the option by December 31, 2012, the Company was obligated to return the option fee of \$600,000, less the aggregate discount on any emission credits sold to the investor prior to such date. In December 2012, the Company and the investor agreed to extend the period for the sale of emission credits until December 31, 2017. As of January 31, 2015, the Company has not generated any emissions credits eligible for purchase under the agreement. The \$600,000 has been classified as a noncurrent liability as of January 31, 2015.

Ocean Power Technologies, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
(Unaudited)

(8) Stock-Based Compensation

Stock-based compensation costs decreased for the three and nine month periods ended January 31, 2015 versus January 31, 2014 due primarily to the termination for cause of Charles F. Dunleavy, former Chief Executive Officer, on June 9, 2014. In accordance with the Company's 2001 Stock Plan and the 2006 Stock Incentive Plan, all vested and unvested grants are forfeited upon termination for cause. In addition, the Company issued stock-based awards during the period of October 2014 to December 2014, where for the prior year stock-based awards were issued during the month of June 2013. The aggregate stock-based compensation expense related to all stock-based transactions recorded in the consolidated statements of operations was approximately \$239,000 and \$570,000 for the nine months ended January 31, 2015 and 2014, respectively.

(a) Stock Options

Valuation Assumptions for Options Granted During the Nine Months Ended January 31, 2015 and 2014

The fair value of each stock option granted, for both service-based and performance-based vesting requirements, during the nine months ended January 31, 2015 and 2014 was estimated at the date of grant using the Black-Scholes option pricing model, assuming no dividends and using the weighted average valuation assumptions noted in the following table. The risk-free rate is based on the US Treasury yield curve in effect at the time of grant. The expected life (estimated period of time outstanding) of the stock options granted was estimated using the "simplified" method as permitted by the SEC's Staff Accounting Bulletin No. 107, *Share-Based Payment*. Expected volatility was based on the Company's historical volatility for the nine months ended January 31, 2015 and 2014.

	Nine Months Ended January 31,	
	2015	2014
Risk-free interest rate	1.6%	1.7%
Expected dividend yield	0.0%	0.0%
Expected life (years)	5.5	5.9
Expected volatility	85.49%	76.29%

The above assumptions were used to determine the weighted average per share fair value of \$0.72 and \$1.26 for stock options granted during the nine months ended January 31, 2015 and 2014, respectively.

A summary of stock options under the plans is as follows:

	Shares Underlying Options	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (In Years)
Outstanding as of April 30, 2014	1,472,292	\$ 5.53	5.9
Forfeited	(497,533)	7.17	
Exercised	—	—	
Granted	115,913	1.02	
Outstanding as of January 31, 2015	<u>1,090,672</u>	4.31	6.0
Exercisable as of January 31, 2015	<u>749,670</u>	5.66	4.8

As of January 31, 2015, the total intrinsic value of outstanding and exercisable options was \$0. As of January 31, 2015, approximately 332,000 additional options are expected to vest in the future, which options had no intrinsic value and a weighted average remaining contractual term of 8.7 years. There was approximately \$130,000 and \$500,000 of total recognized compensation cost related to stock options for the nine months ended January 31, 2015 and 2014, respectively. As of January 31, 2015, there was approximately \$209,000 of total unrecognized compensation cost related to non-vested stock options granted under the plans. This cost is expected to be recognized over a weighted-average period of 2.1 years. The Company normally issues new shares to satisfy option exercises under these plans. Stock options outstanding as of January 31, 2015 included 115,786 stock options subject to performance-based vesting requirements.

Ocean Power Technologies, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
(Unaudited)

(b) Restricted Stock

Compensation expense for non-vested restricted stock is historically recorded based on its market value on the date of grant and recognized over the associated service and performance period. During the nine months ended January 31, 2015, the Company granted 438,012 shares subject to service-based vesting requirements and 371,000 shares subject to performance-based vesting requirements. The service-based vesting grants include a grant to a non-executive director of the Company for 104,000 shares. This grant was issued pursuant to the 2006 Stock Incentive Plan and shall vest immediately upon the approval by the shareholders at the 2015 Annual Meeting (tentatively planned for early October 2015) of additional shares to be authorized under the Company's 2006 Stock Incentive Plan as amended. In the event that the shareholder approval referred to above is not obtained or is otherwise deemed unnecessary, the Board shall determine such other vesting schedule or other form(s) of equivalent compensation as may be necessary or appropriate. The achievement or vesting requirement of the performance-based grants is tied to the Company's total shareholder return (TSR) relative to the total shareholder return of three alternative energy Exchange Traded Funds as measured over a specific performance period. No vesting of the relevant shares will occur in instances where the Company's TSR for the relevant period is below 80% of the peer group. However, additional opportunities to vest some or all of a portion of the shares in a subsequent period may occur. Compensation expense for these awards with market-based vesting is calculated based on the estimated fair value as of the grant date utilizing a Monte Carlo simulation model and is recognized over the service period on a straight-line basis. During the nine months ended January 31, 2015, 9,380 shares of non-vested restricted stock subject to performance-based vesting requirements were forfeited in accordance with performance objectives. Restricted stock issued and unvested at January 31, 2015 included 408,329 shares of non-vested restricted stock subject to performance-based vesting requirements.

A summary of non-vested restricted stock under the plans is as follows:

	<u>Number of Shares</u>	<u>Weighted Average Price per Share</u>
Issued and unvested at April 30, 2014	97,610	\$ 2.23
Granted	809,012	0.65
Forfeited	(9,380)	2.30
Vested	(50,901)	2.13
Issued and unvested at January 31, 2015	<u>846,321</u>	<u>0.73</u>

There was approximately \$109,000 and \$70,000 of total recognized compensation cost related to restricted stock for the nine months ended January 31, 2015 and 2014, respectively. As of January 31, 2015, there was approximately \$438,000 of total unrecognized compensation cost related to non-vested restricted stock granted under the plans. This cost is expected to be recognized over a weighted average period of 2.7 years.

(c) Treasury Stock

During the nine months ended January 31, 2015 and 2014, 806 and 4,081 shares, respectively, of common stock were purchased by the Company from employees to pay taxes related to the vesting of restricted stock.

(9) Commitments and Contingencies

(a) Litigation

Shareholder Litigation:

The Company is a defendant in four putative securities class actions pending in the United States District Court for the District of New Jersey. See *Roby v. Ocean Power Technologies, Inc., et al.*, Case No. 3:14-cv-03799-FLW-LHG; *Chew, et al. v. Ocean Power Technologies, Inc. et. al.*, Case No 3:14-cv-03815-MAS-DEA; *Konstantinidis v. Ocean Power Technologies, Inc., et al.*, Case No. 3:14-cv-04015-FLW-DEA; *Turner v. Ocean Power Technologies, Inc., et al.*, Case No. 3:14-cv-04592. The Company's former Chief Executive Officer is named as a defendant in each of the lawsuits and the Company's Chief Financial Officer is named as a defendant in two of the lawsuits. The complaints allege claims for violations of §10(b) and §20(a) of the Securities Exchange Act of 1934 arising out of public statements relating to a now terminated agreement between Victorian Wave Partners Pty. Ltd. and the Australian Renewable Energy Agency for the development of a wave power station (the "VWP Project"). All four complaints seek unspecified monetary damages and other relief.

Ocean Power Technologies, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
(Unaudited)

On August 12, 2014, five motions for appointment of lead plaintiff were filed. The motions also seek to consolidate the actions. The Court has not ruled on the motions. The cases are still in their preliminary stages and defendants have not yet responded to the complaints.

On July 10, 2014, the Company received a demand letter ("Demand Letter") from an attorney claiming to represent a shareholder demanding that the Company's Board of Directors establish an independent committee to investigate and remedy alleged breaches of fiduciary duties by the Board of Directors and management relating to the VWP Project. The Company is continuing to evaluate the Demand Letter but also invited the attorney to participate in the Section 220 Demand process discussed below. On February 6, 2015, the Company produced documents to the attorney pursuant to a confidentiality agreement in connection with the Section 220 Demand process.

The Company also received a letter, dated August 19, 2014, (the "Section 220 Demand") from another attorney claiming to represent a shareholder demanding, pursuant to 8 Del. C. § 220, to inspect certain books and records of the Company relating to the VWP Project and the termination of Charles Dunleavy as the Company's Chief Executive Officer. The Company has received two additional Section 220 Demands relating to the same subject matter from attorneys claiming to represent two different shareholders. The Company has responded in writing to the three Section 220 Demands and on February 6, 2015 produced documents to each of the attorneys pursuant to confidentiality agreements.

Employment Litigation:

On June 10, 2014, the Company announced that it had terminated Charles Dunleavy as Chief Executive Officer and as an employee of the Company for cause, effective June 9, 2014, and that Mr. Dunleavy had also been removed from his position as Chairman of the Board of Directors. On June 17, 2014, Mr. Dunleavy wrote to the Company stating that he had retained counsel to represent him in connection with an alleged wrongful termination of his employment. On July 28, 2014, Mr. Dunleavy resigned from the Board and the boards of directors of the Company's subsidiaries. The Company and Mr. Dunleavy have agreed to toll his alleged employment claims pending resolution of the shareholder litigation.

In addition, the Company is involved from time to time in certain legal actions arising in the ordinary course of business.

(b) Spain IVA (sales tax)

The Company received notice that the Spanish tax authorities are inquiring into its 2010 IVA (value-added tax) filing for which the Company benefitted from the offset of approximately \$250,000 of input tax. The Company believes that the inquiry will find that the tax credit was properly claimed and, therefore, no liability has been recorded. The Company issued two letters of credit in the amount of €278,828 (\$315,633) at the request of the Spanish tax authorities. This is a customary request during the inquiry period. In November 2014, the Company received a partial refund of the amount under dispute and continues to expect that this matter will be resolved in the Company's favor.

(10) Income Taxes

During the three and nine months ended January 31, 2015, the Company recorded an income tax benefit of \$1,137,872, representing the proceeds from the sale of \$14,004,000 of New Jersey net operating loss carryforwards and research and development tax credits. During the three and nine months ended January 31, 2014, the Company recorded an income tax benefit of \$1,745,895, representing the proceeds from the sale of \$15,347,000 of New Jersey net operating loss carryforwards and research and development tax credits.

Other than as a result of the sale of New Jersey net operating loss carryforwards, the Company did not recognize any consolidated income tax benefit (expense) for the three and nine month periods ended January 31, 2015 and 2014. The Company has recorded a valuation allowance to reduce its net deferred tax asset to an amount that is more likely than not to be realized in future years. Accordingly, the benefit of the net operating loss that would have been recognized was offset by changes in the valuation allowance.

During the nine months ended January 31, 2015, the Company had no material changes in uncertain tax positions.

Ocean Power Technologies, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
(Unaudited)

(11) Operating Segments and Geographic Information

The Company views its business as one segment, which is the development of its PowerBuoy prototype for wave energy applications. The Company operates on a worldwide basis with one operating company in the US, one operating subsidiary in the UK and one operating subsidiary in Australia, which are categorized below as North America, Europe, and Asia and Australia, respectively. Revenues are generally attributed to the operating unit that bills the customers.

Geographic information is as follows:

	North America	Europe	Asia and Australia	Total
Three months ended January 31, 2015				
Revenues from external customers	\$ 328,511	\$ —	\$ —	\$ 328,511
Operating loss	(2,784,095)	(258,636)	(47,194)	(3,089,925)

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis should be read in conjunction with the accompanying unaudited consolidated financial statements and related notes included in this Quarterly Report on Form 10-Q. Some of the information contained in this discussion and analysis or set forth elsewhere in this Form 10-Q, including information with respect to our plans and strategy for our business, includes forward-looking statements that involve risks and uncertainties. You should review the "Risk Factors" section of our Annual Report on Form 10-K for fiscal 2014 for a discussion of important factors that could cause actual results to differ materially from the results described in or implied by the forward-looking statements contained in the following discussion and analysis. References to a fiscal year in this Form 10-Q refer to the year ended April 30 of that year (e.g., fiscal 2014 refers to the year ended April 30, 2014).

Overview

We are developing and are seeking to commercialize proprietary systems that generate electricity by harnessing the renewable energy of ocean waves. Our PowerBuoy® systems use proprietary technologies that convert the mechanical energy created by the rising and falling of ocean waves into electricity. We currently have and are continuing to develop both larger and smaller PowerBuoy prototypes which can be utilized in autonomous or other applications. Since fiscal 2002, government agencies have accounted for a significant portion of our revenues. These revenues were largely for the support of our product development efforts. Our goal is that an increased portion of our revenues will be from the sale of products and services, as compared to revenue from grants to support our product development efforts. As we continue to advance our proprietary technologies, we expect to have a net use of cash from operating activities unless and until we achieve positive cash flow from the planned commercialization of our products and services.

Our PowerBuoy system is based on modular, ocean-going buoys, which we have been periodically ocean testing since 1997. The rising and falling of the waves moves the buoy-like structure, creating mechanical energy that our proprietary technologies convert into electricity. We have tested and developed wave power generation and control technology in novel applications and have deployed and maintained our systems in the ocean for testing. We are developing PowerBuoy technology that has the unique, patented capability to electronically "tune" its performance as wave characteristics change. We expect this will enable the PowerBuoy to optimize its efficiency and resulting power output in dynamic ocean wave conditions. Our two PowerBuoy prototype products are designed for the following applications:

- Our larger scale prototype PowerBuoy product is designed to supply electricity to a stand-alone power user or local or regional electric power grid. Installations may be comprised of a single PowerBuoy or an integrated array of PowerBuoys, plus the remaining components required to deliver electricity to the end user or power grid. In July 2007, our PowerBuoy interface was certified as compliant with international standards. Intertek, an independent laboratory, provided testing and evaluation services to certify that our grid connection systems comply with designated national and international standards. The PowerBuoy grid interface bears the Electrical Testing Laboratories (ETL) listing mark, and can be connected to the utility grid. In September 2010, working in conjunction with the US Navy and Hawaii Electric Company, our 40 kilowatt (kW)-rated PowerBuoy, located at Marine Corps Base Hawaii, became the first-ever grid connected wave energy device in the United States. In January 2011, our larger scale PowerBuoy design (the "150kW PowerBuoy" or "PB150") structure and mooring system achieved independent certification from Lloyd's Register. This certification confirmed that the PB150B1 design complies with certain international standards promulgated for floating offshore installations. The Lloyd's Register (1999 Rules and Regulations for the classification of Floating Offshore Installation at Fixed Locations) process included detailed design analysis and appraisals, addressing the PB150B1 structure, hydrodynamics, mooring and anchoring. This PowerBuoy was deployed off the coast of Scotland from April 2011 through October 2011. While the PowerBuoy did not produce significant or anticipated power during its deployment period, learning from the deployment was incorporated into subsequent PowerBuoy designs. Best practices from the certification have been incorporated into ongoing design improvements. We expect that the next version of the large PowerBuoy will be ready for deployment at the end of this month. Actual deployment will occur as soon as final permits are received and an acceptable weather window opens.
- Our smaller prototype PowerBuoy system is designed to generate power for use autonomously (independent of an existing power grid) in remote locations. In 2011, we deployed and operated off the coast of New Jersey an autonomous prototype PowerBuoy (the "APB-350"), which we designed and manufactured for the US Navy's Littoral Expeditionary Autonomous PowerBuoy (LEAP) contract for coastal security and maritime surveillance. The prototype APB-350 PowerBuoy structure, incorporating a unique power take-off and onboard system for energy storage and management, is significantly smaller than our utility scale PowerBuoy. With the partial funding from the US Navy, we were able to continue to improve our prototype PowerBuoy system. The prototype APB-350 Autonomous PowerBuoy aims at potentially providing persistent, off-grid clean energy in remote ocean locations. We believe there are a variety of potential applications for this system, including ocean-based communication and data gathering such as for tsunami warnings and seismic surveys, homeland security, offshore oil and gas platforms and aquaculture. Within the Homeland Security market sector, in 2012, we executed a Cooperative Research and Development Agreement, or CRADA, with the U.S. Department of Homeland Security, which utilized the same prototype APB-350 Autonomous PowerBuoy. An additional 2013 deployment provided critical data to inform the next design iteration of the prototype APB-350, which will incorporate major modifications to address critical operations and reliability improvements. We anticipate deploying the next version of the smaller PowerBuoy in calendar 2015.

Our product development and engineering efforts are focused primarily on technologies that aim to increase energy output, reliability and scalability of the design of our PowerBuoy system, with the goal of generating electricity at a competitive levelized cost of energy, initially for autonomous applications.

During fiscal 2014, we worked on projects with the US Department of Energy (“DOE”), our WavePort project in Spain, our project with Mitsui Engineering & Shipbuilding (“MES”) and continued our efforts to increase the power output and reliability of our utility and autonomous PowerBuoy systems.

During the nine months ended January 31, 2015, we continued work on our projects with MES and the DOE. We also completed our contract with the European Union (EC) for our WavePort project in Spain. We had announced that the next step in this project would be partially funded by a grant that we received from Ente Vasco de la Energia (“EVE”) a Basque regional energy agency. We had anticipated that the PB40 PowerBuoy would be deployed at a site off the north coast of Spain, along with other components of the project to be provided by members of the consortium under the EC contract. Due to a variety of factors, rather than deploying the PB40 PowerBuoy off of the coast of Spain, we now intend to deploy off the coast of New Jersey. Since the EVE grant, which is up to Euro 1.13 million (\$1.56 million), depends on a deployment in Spain (among other factors) and runs to December 31, 2015, we have removed the EVE grant from our backlog. However, we remain in communication with EVE in regards to utilizing the grant on a future beneficial project, although there can be no assurance that the EVE grant will ever be utilized, and if so, on what terms.

The PowerBuoy arrived in Bayonne, NJ from Santander, Spain in mid-November and our intent is to deploy and ocean test the PB40 in order to achieve the original WavePort project objectives to demonstrate performance of a large scale wave energy converter. We expect to be ready for deployment this month and actual deployment will occur as soon as final permits are received and an acceptable weather window opens.

On our Reedsport project in Oregon, we had obtained a permit from the Federal Energy Regulatory Commission (“FERC”) for a multi-stage wave power project off the coast of Reedsport, Oregon. In addition, we received two cost-sharing contracts with the (DOE) for approximately \$4.4 million to construct and deploy a single PowerBuoy off the coast of Reedsport. We subsequently obtained a license from FERC in August 2012 that authorized installation and operation of a 10-buoy grid connected wave energy array (the “License”). Due to the complexity of the FERC regulations for the single buoy, higher than anticipated project costs, unanticipated technical risks, and uncertainty surrounding permitting, we made the decision not to proceed with the project. Accordingly, we announced in March 2014 our surrender of the permit for one phase of the project and announced in April 2014 that we were taking the steps necessary to close out this project with the DOE. In May 2014, we filed an application to surrender the FERC permit for the remaining phases. In August, we completed the removal of the anchoring and mooring equipment from the seabed off the coast of Oregon. We are in the process of submittal and acceptance of final reports to FERC.

We also continued our efforts to increase the output and reliability of our utility and autonomous PowerBuoy systems. Our development efforts also remain focused on further optimization of our modular and optimized power takeoff technology.

At January 31, 2015, our total negotiated backlog was \$1.3 million compared with \$5.6 million at January 31, 2014. Some of our backlog at January 31, 2015 and 2014 consisted of cost-sharing contracts as described in the Financial Operations Overview section of Management’s Discussion and Analysis in this Quarterly Report on Form 10-Q. Our backlog can include both funded amounts, which are unfilled firm orders for our products and services for which funding has been both authorized and appropriated by the customer (Congress, in the case of US Government agencies), and unfunded amounts, which are unfilled firm orders from the DOE for which funding has not been appropriated. If any of our contracts were to be terminated, our backlog would be reduced by the expected value of the remaining terms of such contracts. Currently we expect that our backlog will continue to decline; however, we continue to focus on obtaining new contracts and customers to further our technology and are exploring potential partnerships and strategic alliances. Our backlog was fully funded at January 31, 2015 and 2014. Further, in September 2013, we were selected for a \$1.0 million award from the DOE to enhance the commercial viability of our PowerBuoy system through mechanical component design changes. On September 26, 2014, the DOE notified the Company of DOE’s decision to terminate negotiations with respect to the financial assistance award under the funding opportunity, and the Company accepted DOE’s decision without protest. As previously disclosed, we had not received any funds from DOE with respect to this award and had not included the award in our backlog.

We also reduced our backlog by \$1.0 million for the grant that we received from Ente Vasco de la Energia (“EVE”) a Basque regional energy agency that would provide partial funding for the deployment of the PowerBuoy off the coast of Spain. It is our intent to deploy the PowerBuoy off the coast of New Jersey as discussed above and we remain in communication with EVE in regards to utilizing the grant on a future beneficial project.

Currently our contract with Mitsui Engineering & Shipbuilding (MES) is undergoing a stage-gate review process and activity has been suspended until we receive further notification from MES. Stage-gate reviews are used in product development to gather key information needed to advance the project to the next gate or decision point. This process has been utilized by other customers such as the Department of Energy. MES has indicated that work under this contract could resume on and after April 2015 upon passing the stage-gate review. We are currently accessing the unbilled costs on this project to determine if fourth quarter revenues from this project will be reduced pending restart of this project. In addition, depending on the outcome of the stage-gate review, the scope of the project may be decreased or increased and other terms, including schedule, of the project may change. A significant reduction in the remaining scope of the project could have a material adverse effect on our future revenue and backlog.

For the three months ended January 31, 2015, we generated revenues of \$0.3 million and incurred a net loss attributable to Ocean Power Technologies, Inc. of \$2.2 million, and for the three months ended January 31, 2014, we generated revenues of \$0.2 million and incurred a net loss attributable to Ocean Power Technologies, Inc. of \$0.7 million. As of January 31, 2015, our accumulated deficit was \$161.5 million. We have not been profitable since inception, and we do not know whether or when we will become profitable because of the significant uncertainties with respect to our ability to successfully commercialize our PowerBuoy systems in the emerging renewable energy market.

Currently, the cost of electricity generated from wave energy, without the benefit of subsidies or other economic incentives, substantially exceeds the prevailing price of electricity in all significant markets in the world. As a result, the near-term growth of the market opportunity for our utility PowerBuoy systems, which are designed with the capability to feed electricity into a local or regional power grid, depends significantly on the availability and magnitude of government incentives and subsidies for wave energy. Federal, state and local governmental bodies in many countries have provided subsidies in the form of tariff subsidies, rebates, tax credits and other incentives to utilities, power generators and distributors using renewable energy. However, these incentives and subsidies generally decline over time. Many incentive and subsidy programs have specific expiration dates, and there can be no assurance that our technology will qualify for current or future subsidies. The timing, scope and size of new government programs for renewable energy are uncertain, and there can be no assurances that we or our customers will be successful in obtaining any additional government funding or that projects will be profitable even with available funding.

Included in our diversification strategy is the use of PowerBuoy technology for the autonomous applications markets. Such applications require open ocean power sources that operate independently of the utility grid by supplying electric power to payloads that are integrated directly in the PowerBuoy and/or located in its vicinity. Based on market research and available public data, we believe considerable business opportunity exists in six markets that would have a direct need for our autonomous PowerBuoys: ocean observing, offshore wind, defense and security, oil and gas, communications, and ocean aquaculture. Based on power needs, sensor types and other considerations, we believe our APB-350 could have the ability to satisfy several application requirements within these six markets. It is designed to offer a substantial amount of persistent power while also providing a simple and stable integration platform that is deployable using readily available vessels and skills. The APB-350 is currently undergoing a design re-spin focusing on improving its commercial viability, its reliability and endurance. Based on our product and technology roadmap, we expect the APB-350 will undergo a significant in-ocean testing and by summer of 2016, we believe that it will achieve a maturity level that allows us to proceed with our commercial launch. Our intention is to perform first product demonstrations with early adopters and launch customers near the same timeframe. We anticipate that the APB-350 will have sufficient power to address application needs in all six markets such as metrological data collection, wind and environmental data collection for offshore wind, and sensors and communications for homeland defense. With additional power available, we believe new applications will be enabled through the development of new sensors and hardware that were not feasible or financially viable with incumbent power sources such as generators, solar, wind and battery based sources.

The amount of contract backlog is not necessarily indicative of future revenue because modifications to or terminations of present contracts and production delays can provide additional revenue or reduce anticipated revenue. A substantial portion of our revenue is recognized using the percentage-of-completion method, and changes in estimates from time to time may have a significant effect on revenue and backlog. Our backlog is also typically subject to large variations from time to time due to the timing of new awards.

Australia

In 2009, Leighton Contractors Pty. Ltd. (Leighton) formed Victorian Wave Partners Pty Ltd (“VWP”), a special purpose company for the development of a wave power project off the coast of Victoria, Australia. In 2010, VWP and the Commonwealth of Australia entered into an Energy Demonstration Program Funding Deed (“Funding Deed”), wherein VWP was awarded an A\$66.5 million (approximately US\$62 million) grant for the wave power project; however, receipt of funds under the grant was subject to certain terms, including achievement of future significant external funding milestones. The grant was expected to be used towards the A\$232 million proposed cost of building and deploying a wave power station off the coast of Australia (the “Project”). In March 2012, our Australian subsidiary Ocean Power Technologies (Australasia) Pty. Ltd acquired 100% ownership of VWP from Leighton. In January 2014, VWP signed a Deed of Variation with the Australian Renewable Energy Agency (“ARENA”) that amended the Funding Deed, and, in March 2014, received the initial portion of the grant from ARENA in the amount of approximately A\$5.6 million (approximately US\$5.2 million) (the “Initial Funding”). The Initial Funding was subject to claw-back provisions if certain contractual requirements, including performance criteria, were not satisfied. In light of the claw-back provisions, the Company determined to classify the Initial Funding as an advance payment, hold the funds as restricted cash and defer recognition of the funds as revenue.

In July 2014, VWP's Board of Directors concluded that the wave power demonstration project contemplated was no longer commercially viable, and VWP delivered a termination notice to ARENA. In August 2014, the Company and ARENA executed the Deed of Variation and Termination of Funding Deed. Under this agreement the Company returned the initial grant funding received of A\$5,595,723 (\$5,179,960) and interest of A\$109,051 (\$102,061).

Financial Operations Overview

The following describes certain line items in our consolidated statements of operations and some of the factors that affect our operating results.

Revenues

Generally, we recognize revenue using the percentage-of-completion method based on the ratio of costs incurred to total estimated costs at completion. In certain circumstances, revenue under contracts that have specified milestones or other performance criteria may be recognized only when our customer acknowledges that such criteria have been satisfied. In addition, recognition of revenue (and the related costs) may be deferred for fixed-price contracts until contract completion if we are unable to reasonably estimate the total costs of the project prior to completion. Some revenue contracts may contain complex criteria or uncertainty surrounding the terms of performance and customer acceptance. These contracts are subject to interpretation, and management may make a judgment as to the amount of revenue earned and recorded. Because we have a small number of contracts, revisions to the percentage-of-completion determination, management interpretation or delays in meeting performance and contractual criteria or in completing projects may have a significant effect on our revenue for the periods involved. Upon anticipating a loss on a contract, we recognize the full amount of the anticipated loss in the current period.

Generally, our contracts are either cost plus or fixed price contracts. Under cost plus contracts, we bill the customer for actual expenses incurred plus an agreed-upon fee. Revenue is typically recorded using the percentage-of-completion method based on the maximum awarded contract amount. In certain cases, we may choose to incur costs in excess of the maximum awarded contract amounts resulting in a loss on the contract. Currently, we have two types of fixed price contracts, firm fixed price and cost-sharing. Under firm fixed price contracts, we receive an agreed-upon amount for providing products and services that are specified in the contract. Revenue is typically recorded using the percentage-of-completion method based on the contract amount. Depending on whether actual costs are more or less than the agreed-upon amount, there is a profit or loss on the project. Under cost-sharing contracts, the fixed amount agreed upon with the customer is only intended to fund a portion of the costs on a specific project. We fund the remainder of the costs as part of our product development efforts. Revenue is typically recorded using the percentage-of-completion method based on the amount agreed upon with the customer. An amount corresponding to the revenue is recorded in cost of revenues resulting in gross profit on these contracts of zero. Our share of the costs is recorded as product development expense. Most of our revenue for the three and nine months ended January 31, 2015 and 2014 was from cost-sharing contracts, however, in the three and nine months ended January 31, 2015 our firm fixed price contract with MES recorded under the percentage-of-completion method had an increase in estimated total costs of the project. This increase in estimated project costs resulted in a gross loss, and we recorded an accrual for the future anticipated loss on the contract.

The following table provides information regarding the breakdown of our revenues by customer for the three and nine months ended January 31, 2015 and 2014:

<u>Customer</u>	<u>Three months ended January 31,</u>		<u>Nine months ended January 31,</u>	
	<u>2015</u>	<u>2014</u>	<u>2015</u>	<u>2014</u>
US Department of Energy	\$ 0.1	\$ 0.1	\$ 1.3	\$ 0.4
Mitsui Engineering & Shipbuilding	0.2	0.2	1.3	0.2
European Union (WavePort project)	—	(0.1)	1.0	0.3
UK Government's Technology Strategy Board	—	—	—	0.2
	<u>\$ 0.3</u>	<u>\$ 0.2</u>	<u>\$ 3.6</u>	<u>\$ 1.1</u>

The following table shows the percentage of our revenues by geographical location of our customers for the nine months ended January 31, 2015 and 2014:

<u>Customer Location</u>	<u>Nine months ended January 31,</u>	
	<u>2015</u>	<u>2014</u>
United States	37%	34%
Europe	26%	45%
Asia and Australia	37%	21%
	<u>100%</u>	<u>100%</u>

Cost of revenues

Our cost of revenues consists primarily of incurred material, labor and manufacturing overhead expenses, such as engineering expense, equipment depreciation and maintenance and facility related expenses, and includes the cost of PowerBuoy parts and services supplied by third-party suppliers. Cost of revenues also includes PowerBuoy system delivery and deployment expenses and may include anticipated losses at completion on certain contracts.

Some of our revenue recorded for the nine months ended January 31, 2015 and 2014 was generated from cost-sharing contracts, which result in zero gross profit, however, in the nine months ended January 31, 2015 our firm fixed price contract with MES recorded under the percentage-of-completion method had an increase in estimated total costs of the project. This increase in estimated project costs resulted in a gross loss and we recorded an accrual for the future anticipated loss on the contract.

Our ability to generate a gross profit will depend on the nature of future contracts, our success at increasing sales of our PowerBuoy systems and our ability to manage costs incurred on fixed price commercial contracts.

Product development costs

Our product development costs consist of salaries and other personnel-related costs and the costs of products, materials and outside services used in our product development and unfunded research activities. Our product development costs relate primarily to our efforts to increase the power output and reliability of our utility PowerBuoy system, and to our research and development of new products, product applications and complementary technologies. We expense all of our product development costs as incurred. Over the next several years, it is our intent to fund the majority of our research and development expenses, including cost-sharing arrangements, with sources of external funding. If we are unable to obtain external funding, we may curtail our research and development expenses and scope as necessary.

Selling, general and administrative costs

Our selling, general and administrative costs consist primarily of professional fees, salaries and other personnel-related costs for employees and consultants engaged in sales and marketing and support of our PowerBuoy systems and costs for executive, accounting and administrative personnel, professional fees and other general corporate expenses.

Interest income (expense), net

Interest income consists of interest received on cash and cash equivalents, investments in commercial bank-issued certificates of deposit and US Treasury bills and notes and interest expense paid on certain obligations to third parties. Total cash, cash equivalents, restricted cash, and marketable securities were \$20.5 million as of January 31, 2015, compared to \$19.6 million as of January 31, 2014.

Foreign exchange (loss) gain

We transact business in various countries and have exposure to fluctuations in foreign currency exchange rates. Foreign exchange gains and losses arise in the translation of foreign-denominated assets and liabilities, which may result in realized and unrealized gains or losses from exchange rate fluctuations. Since we conduct our business in US dollars and our functional currency is the US dollar, our main foreign exchange exposure, if any, results from changes in the exchange rate between the US dollar and the British pound sterling, the Euro and the Australian dollar. Due to the macroeconomic pressures in certain European countries, foreign exchange rates may become more volatile in the future.

We invest in certificates of deposit and maintain cash accounts that are denominated in British pounds sterling, Euros and Australian dollars. These foreign-denominated certificates of deposit and cash accounts had a balance of \$1.2 million as of January 31, 2015 and \$2.1 million as of January 31, 2014, compared to our total cash, cash equivalents, restricted cash, and marketable securities balances of \$20.5 million as of January 31, 2015 and \$19.6 million as of January 31, 2014. These foreign currency balances are translated at each month end to our functional currency, the US dollar, and any resulting gain or loss is recognized in our results of operations.

In addition, a portion of our operations is conducted through our subsidiaries in countries other than the United States, specifically Ocean Power Technologies Ltd. in the United Kingdom, the functional currency of which is the British pound sterling, and Ocean Power Technologies (Australasia) Pty Ltd. in Australia, the functional currency of which is the Australian dollar. Both of these subsidiaries have foreign exchange exposure that results from changes in the exchange rate between their functional currency and other foreign currencies in which they conduct business. A portion of our international revenues for the three and nine months ended January 31, 2015 and 2014 were recorded in Euros or British pounds sterling.

We currently do not hedge our exchange rate exposure. However, we assess the anticipated foreign currency working capital requirements and capital asset acquisitions of our foreign operations and attempt to maintain a portion of our cash, cash equivalents and marketable securities denominated in foreign currencies sufficient to satisfy these anticipated requirements. We also assess the need and cost to utilize financial instruments to hedge currency exposures on an ongoing basis and may hedge against exchange rate exposure in the future.

Income tax benefit

During the nine months ended January 31, 2015 and 2014, we sold New Jersey net operating tax loss carryforwards and research and development credits resulting in income tax benefits of \$1.1 million and \$1.7 million, respectively. Previously, these carryforward amounts were subject to valuation allowances.

Results of Operations

Three Months Ended January 31, 2015 Compared to Three Months Ended January 31, 2014

The following table contains selected statement of operations information, which serves as the basis of the discussion of our results of operations for the three months ended January 31, 2015 and 2014:

	Three Months ended January 31,		% Change 2015 Period to 2014 Period
	2015	2014	
Revenues	\$ 328,511	\$ 199,622	65%
Cost of revenues	379,106	193,213	96
Gross (loss) profit	(50,595)	6,409	(889)
Operating expenses:			
Product development costs	1,082,628	785,946	38
Selling, general and administrative costs	1,956,702	1,771,560	10
Total operating expenses	3,039,330	2,557,506	19
Operating loss	(3,089,925)	(2,551,097)	(21)
Interest income, net	6,793	3,336	(104)
Foreign exchange (loss) gain	(246,002)	23,448	(1,149)
Loss before income taxes	(3,329,134)	(2,524,313)	32
Income tax benefit	1,137,872	1,745,895	35
Net loss	(2,191,262)	(778,418)	182
Less: Net loss attributable to the noncontrolling interest in Ocean Power Technologies (Australasia) Pty Ltd.	5,291	38,628	(86)
Net loss attributable to Ocean Power Technologies, Inc.	<u>\$ (2,185,971)</u>	<u>\$ (739,790)</u>	(195)%

Revenues

Revenues increased by \$0.1 million, or 65%, to \$0.3 million in the three months ended January 31, 2015, as compared to \$0.2 million in the three months ended January 31, 2014. The increase in revenue is primarily related increased billable work under the current phase of our project with MES.

Cost of revenues

Cost of revenues increased by \$0.2 million, or 96%, to \$0.3 million in the three months ended January 31, 2015, as compared to \$0.2 million in the three months ended January 31, 2014. The increase in cost of revenue is primarily related to costs for increased billable work under the current phase of our project with MES. Our firm fixed price contract with MES recorded under the percentage-of-completion method had an increase in estimated total costs of the project. This increase in estimated project costs resulted in a gross loss and we recorded an accrual for the future anticipated loss on the contract.

Some of our projects in the nine month period ended January 31, 2015 were under cost-sharing contracts. Under cost-sharing contracts, we receive a fixed amount agreed upon with the customer that is only intended to fund a portion of the costs on a specific project. We fund the remainder of the costs primarily as part of our product development efforts. Revenue is typically recorded using the percentage-of-completion method applied to the contractual amount agreed upon with the customer. An equal amount corresponding to the revenue is recorded in cost of revenues resulting in gross profit on these contracts of zero. Our share of the costs is considered to be product development expense. Our ability to generate a gross profit will depend on the nature of future contracts, our success at increasing sales of our PowerBuoy systems and on our ability to manage costs incurred on our fixed price contracts.

Product development costs

Product development costs increased by \$0.3 million, or 38%, to \$1.1 million in the three months ended January 31, 2015, as compared to \$0.8 million in the three months ended January 31, 2014. The increase in product development costs was related primarily to costs associated with our PB40 PowerBuoy project that we expect to be ready for deployment this month off the coast of New Jersey. Actual deployment will occur as soon as final permits are received and an acceptable weather window opens. In addition, costs were increased associated with the next design iteration of the APB-350. We intend to deploy this next version of the smaller PowerBuoy in calendar 2015. Over the next several years, it is our intent to fund the majority of our research and development expenses, including cost-sharing arrangements, with sources of external funding. If we are unable to obtain external funding, we may curtail product development expenses and/or scope as necessary.

Selling, general and administrative costs

Selling, general and administrative costs increased by approximately \$0.2 million, or 10%, to \$2.0 million for the three months ended January 31, 2015 as compared to \$1.8 million for the three months ended January 31, 2014. The increase was related primarily to third party consultant fees, patent costs due to shortening the estimated useful lives for recording amortization expense and employee related costs. In addition, during the three months ended January 31, 2014, we had a favorable adjustment for a doubtful allowance on a customer receivable. These increases were offset by decreased site development expenses related to our terminated project in Australia.

Interest income, net

Interest income was approximately \$7,000 for the three months ended January 31, 2015, and the \$3,000 for the three months ended January 31, 2014.

Foreign exchange (loss) gain

Foreign exchange loss was \$246,000 for the three months ended January 31, 2015, compared to a foreign exchange gain of \$23,000 for the three months ended January 31, 2014. The difference was attributable primarily to the relative change in value of the British pound sterling, Euro and Australian dollar compared to the US dollar during the two periods.

Income tax benefit

During the three months ended January 31, 2015 and 2014, we sold New Jersey net operating tax loss carryforwards and research and development credits resulting in income tax benefits of \$1.1 million and \$1.7 million, respectively. Previously, these carryforward amounts were subject to valuation allowances.

Nine Months Ended January 31, 2015 Compared to Nine Months Ended January 31, 2014

The following table contains selected statement of operations information, which serves as the basis of the discussion of our results of operations for the nine months ended January 31, 2015 and 2014:

	Nine Months ended January 31,		% Change 2015 Period to 2014 Period
	2015	2014	
Revenues	\$ 3,616,827	\$ 1,124,157	222%

Net loss attributable to Ocean Power Technologies, Inc.	\$ (9,838,417)	\$ (7,760,317)	(27)%

Revenues

Revenues increased by \$2.5 million, or 222%, to \$3.6 million in the nine months ended January 31, 2015, as compared to \$1.1 million in the nine months ended January 31, 2014. The increase in revenue is primarily related to increased billable work for the removal of the anchoring and mooring equipment from the seabed off the coast of Oregon and increased billable work under the current phase of our project with MES and revenue related to the completion of our WavePort contract with the EU. These increases were partially offset by decreased revenue on other billable development projects.

Cost of revenues

Cost of revenues increased by \$3.2 million, or 289%, to \$4.3 million in the nine months ended January 31, 2015, as compared to \$1.1 million in the nine months ended January 31, 2014. The increase in cost of revenues is primarily related to costs for increased billable work for the removal of the anchoring and mooring equipment from the seabed off the coast of Oregon and increased billable work under the current phase of our project with MES and cost of revenue related to the completion of our WavePort contract with the EU. Our firm fixed price contract with MES recorded under the percentage-of-completion method had an increase in estimated total costs of the project. This increase in estimated project costs resulted in a gross loss and we recorded an accrual for the future anticipated loss on the contract. These increases were partially offset by decreased cost of revenues on other billable development projects.

Some of our projects in the nine month period ended January 31, 2015 were under cost-sharing contracts. Under cost-sharing contracts, we receive a fixed amount agreed upon with the customer that is only intended to fund a portion of the costs on a specific project. We fund the remainder of the costs primarily as part of our product development efforts. Revenue is typically recorded using the percentage-of-completion method applied to the contractual amount agreed upon with the customer. An equal amount corresponding to the revenue is recorded in cost of revenues resulting in gross profit on these contracts of zero. Our share of the costs is considered to be product development expense. Our ability to generate a gross profit will depend on the nature of future contracts, our success at increasing sales of our PowerBuoy systems and on our ability to manage costs incurred on our fixed price contracts.

Product development costs

Product development costs decreased by \$1.4 million, or 39%, to \$2.2 million in the nine months ended January 31, 2015 as compared to \$3.7 million in the nine months ended January 31, 2014. The decrease in product development costs was related primarily to the substantial completion of our cost-sharing contract with the DOE for our Reedsport project in Oregon and decreased costs associated with other internally funded development projects. Over the next several years, it is our intent to fund the majority of our research and development expenses, including cost-sharing arrangements, with sources of external funding. If we are unable to obtain external funding, we may curtail product development expenses and/or scope as necessary.

Selling, general and administrative costs

Selling, general and administrative costs increased by approximately \$1.7 million, or 27%, to \$7.8 million for the nine months ended January 31, 2015 as compared to \$6.1 million for the nine months ended January 31, 2014. The increase was related primarily to legal fees to address the shareholder litigation and related matters. In addition, costs increased related to third party consultant fees and patent costs due to shortening the estimated useful lives for recording amortization expense. These increases were offset by decreased employee related costs and decreased site development expenses related to our terminated project in Australia. In addition, during the nine months ended January 31, 2014, we had a favorable adjustment for a doubtful allowance on a customer receivable.

Interest (expense) income, net

Interest income (expense) decreased to (\$48,000) for the nine months ended January 31, 2015, as compared to \$7,000 in the nine months ended January 31, 2014. This change was related primarily to interest expense recorded for the repayment of funds received in March 2014 from ARENA of \$5.2 million.

Foreign exchange (loss) gain

Foreign exchange loss was \$468,000 for the nine months ended January 31, 2015, compared to a foreign exchange gain of \$153,000 for the nine months ended January 31, 2014. The difference was attributable primarily to the relative change in value of the British pound sterling, Euro and Australian dollar compared to the US dollar during the two periods.

Other income

During the nine months ended January 31, 2015, we reached a favorable settlement with a vendor regarding a disputed transaction, which comprises the amount of \$185,000 recorded within Other income.

Income tax benefit

During the nine months ended January 31, 2015 and 2014, we sold New Jersey net operating tax loss carryforwards and research and development credits resulting in income tax benefits of \$1.1 million and \$1.7 million, respectively. Previously, these carryforward amounts were subject to valuation allowances.

Liquidity and Capital Resources

Since our inception, the cash flows from customer revenues have not been sufficient to fund our operations and provide the capital resources for the planned growth of our business. For the two years ended April 30, 2014, our net losses were \$26.0 million and our net cash used in operating activities was \$17.3 million.

Cash flows for the nine months ended January 31, 2015 and 2014 were as follows:

	Nine Months Ended January 31,	
	2015	2014
Net loss	\$ (9,936,571)	\$ (7,881,916)
Adjustments for noncash operating items	1,437,525	447,419
Net cash operating loss	(8,499,046)	(7,434,497)
Net change in operating assets and liabilities	(6,252,578)	(617,520)
Net cash used in operating activities	<u>\$ (14,751,624)</u>	<u>\$ (8,052,017)</u>
Net cash provided by investing activities	<u>\$ 21,176,744</u>	<u>\$ 1,728,959</u>
Net cash (used in) provided by financing activities	<u>\$ (75,659)</u>	<u>\$ 5,859,445</u>
Effect of exchange rates on cash and cash equivalents	<u>\$ (339,214)</u>	<u>\$ 7,463</u>

Net cash used in operating activities

Net cash used in operating activities was \$14.8 million and \$8.1 million for the nine months ended January 31, 2015 and 2014, respectively. The change was the result of an increase in net loss of \$2.1 million and an increase in cash used by the net change in operating assets and liabilities of \$5.6 million primarily due to the return of the advance payment of \$4.7 million related to the former ARENA contract, offset by an increase in noncash operating items of \$1.0 million.

The increase in net loss for the nine months ended January 31, 2015 compared to the nine months ended January 31, 2014 reflects a gross loss of \$0.7 million relating to our project with MES, an increase in selling, general and administrative costs of \$1.7 million, offset by a decrease in product development costs of \$1.4 million relating primarily to our project in Reedsport, Oregon, a decrease in the net change of \$0.4 million in other income and foreign exchange differences and a decrease in income tax benefits of \$0.6 million.

The increase in noncash operating items reflects an increase in amortization expense for patents of \$0.4 million and foreign exchange losses of \$0.6 million and the prior period reversal of an allowance for doubtful accounts receivable of \$0.3 million offset by a decrease in equity compensation of \$0.3 million.

The decrease in operating assets and liabilities reflects the decrease advanced payment received from customers of \$4.7 million, a net decrease of \$0.5 million in unearned revenues and other net changes in operating assets and liabilities of \$0.2 million. These decreases are offset by the collection of \$0.6 million in accounts receivable and a net increase in other assets of \$0.3 million.

Net cash provided by investing activities

Net cash provided by investing activities was \$21.2 million for the nine months ended January 31, 2015 and net cash provided by investing activities was \$1.7 million for the nine months ended January 31, 2014. The change was primarily the result of a net increase of \$11.9 million in maturities of marketable securities during the nine months ended January 31, 2015 and an increase from restricted cash of \$7.6 million.

Net cash (used in) provided by financing activities

Net cash used in financing activities was \$75,000 and net cash provided by was \$5,859,000 for the nine months ended January 31, 2015 and 2014, respectively. The net cash used was primarily for repayment of long-term debt in the nine months ended January 31, 2015 and net cash provided in the nine months ended January 31, 2014 was primarily from the sale of common stock, net of issuance costs.

Effect of exchange rates on cash and cash equivalents

The effect of exchange rates on cash and cash equivalents was a decrease of \$339,000 and an increase of \$7,500 in the nine months ended January 31, 2015 and 2014, respectively. The effect of exchange rates on cash and cash equivalents results primarily from gains or losses on consolidation of foreign subsidiaries and foreign denominated cash and cash equivalents.

Liquidity Outlook

We expect to devote substantial resources to continue our development efforts for our PowerBuoy systems and to expand our sales, marketing and manufacturing programs associated with the planned commercialization of the PowerBuoy systems. Our future capital requirements will depend on a number of factors, including:

- the cost of development efforts for our PowerBuoy systems;
- our success in developing commercial relationships with major customers;
- the ability to obtain project-specific financing, grants, subsidies and other sources of funding for some of our projects;
- the cost of manufacturing activities;
- the cost and success rate of commercialization activities, including demonstration projects, product marketing and sales;
- our ability to establish and maintain additional customer relationships;
- the implementation of our expansion plans, including the hiring of new employees as our business increases;
- the cost of potential acquisitions of other products or technologies;
- the costs involved in preparing, filing, prosecuting, maintaining and enforcing patent claims and other patent-related costs; and
- the cost of shareholder litigation and regulatory inquiries.

We have incurred negative operating cash flows since our inception. As of January 31, 2015, our cash and cash equivalents and marketable securities balance was approximately \$19.9 million. Based upon our cash and cash equivalents and marketable securities balance as of January 31, 2015, we believe that we will be able to finance our capital requirements and operations through at least the first calendar quarter of 2016. In addition, as of January 31, 2015, our restricted cash balance was approximately \$0.6 million, which reflects a significant decrease from our restricted cash balance of approximately \$7.3 million as of April 30, 2014. See Note 2(f).

During fiscal 2014 and 2013, we have continued to make investments in ongoing product development efforts in anticipation of future growth. Our future results of operations involve significant risks and uncertainties. Factors that could adversely affect our future operating results and cause actual results to vary materially from expectations include, but are not limited to, risks from competition, new products, technological change, recent economic activity and dependence on key personnel. In order to complete our future growth strategy, we will require additional equity and/or debt financing. There is no assurance that additional equity and/or debt financing will be available to us as needed. If sufficient financing is not obtained, we may be required to further curtail or limit certain product development costs, and/or selling, general and administrative activities in order to reduce our cash expenditures.

In January 2013, we filed a shelf registration statement on Form S-3 (the "S-3" or the "S-3 Shelf"). The S-3 Shelf was declared effective in February 2013. Under the S-3 Shelf in June 2013, we established the ATM Facility with Ascendant Capital Markets, LLC via the ATM Agreement in June 2013. Under the ATM Agreement, we offered and sold shares of our common stock from time to time through the Manager, acting as sales agent, in ordinary brokerage transactions at prevailing market prices. Under the ATM Facility, during fiscal 2014, we issued 3,306,334 shares of our common stock at an average price to the public of \$3.02 per share, receiving net proceeds from the ATM Facility of approximately \$9,698,000.

Also in fiscal 2014, we entered into an Underwriting Agreement with Roth Capital Partners, LLC on April 4, 2014, with respect to the issuance and sale in an underwritten Public Offering of an aggregate of 3,800,000 shares of our common stock at a price of \$3.10 per share. The Underwriting Agreement contained customary representations, warranties and agreements by us, customary conditions to closing, indemnification obligations, and a 90 day lock-up period that limited transactions in our common stock by us. Net proceeds from the Public Offering, which was completed in early April 2014, were approximately \$10,828,000.

Form S-3 limits the aggregate market value of securities that we are permitted to offer in any 12-month period under Form S-3, whether under the ATM Agreement, the Underwriting Agreement or otherwise, to one third of our public float. After the February 2014 share sales, we fully utilized the ATM Agreement and reached the applicable limit under Form S-3. Of the \$40 million authorized under the S-3 Shelf, approximately \$18.2 million remains available for issuance. During the nine months ended January 31, 2015, there were no proceeds from the sale of stock under the S-3 Shelf.

The sale of additional equity or convertible securities could result in dilution to our stockholders. If additional funds are raised through the issuance of debt securities, these securities could have rights senior to those associated with our common stock and could contain covenants that would restrict our operations. Financing may not be available in amounts or on terms acceptable to us, or at all. If we are unable to obtain required financing, we may be required to reduce the scope of our current projects, planned product development and marketing efforts, which could harm our financial condition and operating results.

During the three months ended April 30, 2014, our subsidiary VWP received approximately A\$5.2 million in initial grant funding from ARENA. The Company recorded this payment as an advance payment within the consolidated balance sheet. We classified the initial grant funding received from ARENA, of A\$5,595,723 (\$5,179,960), which includes GST, as restricted cash. In July 2014, the VWP Board of Directors determined that the project contemplated by the grant was no longer commercially viable and tendered a notice of its intent to terminate the Funding Deed and return to ARENA the grant funds received.

During the nine months ended January 31, 2015, the Company remitted the GST in the amount of A\$508,702 (\$470,905) to the Australian Tax Office (ATO) in accordance with local tax laws and reclaimed this amount from the ATO during such nine month period. In August 2014, the Company returned the initial grant funding received of A\$5,595,723 (\$5,179,960) and interest of A\$109,051 (\$102,061) to ARENA in accordance with the Deed of Variation and Termination of Funding Deed executed between the parties in August 2014.

Off-Balance Sheet Arrangements

Since inception, we have not engaged in any off-balance sheet financing activities.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not Applicable.

Item 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Management, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of January 31, 2015 pursuant to Rules 13a-15(b) or 15d-15(b) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) are controls and other procedures that are designed to ensure that information required to be disclosed by us in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in the reports that we file under the Exchange Act is accumulated and communicated to our management, as appropriate, to timely allow decisions regarding required disclosure. Based on such evaluation, management concluded that our disclosure controls and procedures were effective as of January 31, 2015 to ensure that non-financial statement and related disclosure information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms.

Changes in Internal Control over Financial Reporting

No change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) occurred during the fiscal quarter ended January 31, 2015 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II — OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS

Shareholder Litigation:

Shareholder Litigation:

The Company is a defendant in four putative securities class actions pending in the United States District Court for the District of New Jersey. See *Roby v. Ocean Power Technologies, Inc., et al.*, Case No. 3:14-cv-03799-FLW-LHG; *Chew, et al. v. Ocean Power Technologies, Inc. et. al.*, Case No 3:14-cv-03815-MAS-DEA; *Konstantinidis v. Ocean Power Technologies, Inc., et al.*, Case No. 3:14-cv-04015-FLW-DEA; *Turner v. Ocean Power Technologies, Inc., et al.*, Case No. 3:14-cv-04592. The Company's former Chief Executive Officer is named as a defendant in each of the lawsuits and the Company's Chief Financial Officer is named as a defendant in two of the lawsuits. The complaints allege claims for violations of §10(b) and §20(a) of the Securities Exchange Act of 1934 arising out of public statements relating to a now terminated agreement between Victorian Wave Partners Pty. Ltd. and the Australian Renewable Energy Agency for the development of a wave power station (the "VWP Project"). All four complaints seek unspecified monetary damages and other relief. On August 12, 2014, five motions for appointment of lead plaintiff were filed. The motions also seek to consolidate the actions. The Court has not ruled on the motions. The cases are still in their preliminary stages and defendants have not yet responded to the complaints.

On July 10, 2014, the Company received a demand letter ("Demand Letter") from an attorney claiming to represent a shareholder demanding that the Company's Board of Directors establish an independent committee to investigate and remedy alleged breaches of fiduciary duties by the Board of Directors and management relating to the VWP Project. The Company is continuing to evaluate the Demand Letter but also invited the attorney to participate in the Section 220 Demand process discussed below. On February 6, 2015, the Company produced documents to the attorney pursuant to a confidentiality agreement in connection with the Section 220 Demand process.

The Company also received a letter, dated August 19, 2014, (the "Section 220 Demand") from another attorney claiming to represent a shareholder demanding, pursuant to 8 Del. C. § 220, to inspect certain books and records of the Company relating to the VWP Project and the termination of Charles Dunleavy as the Company's Chief Executive Officer. The Company has received two additional Section 220 Demands relating to the same subject matter from attorneys claiming to represent two different shareholders. The Company has responded in writing to the three Section 220 Demands and on February 6, 2015 produced documents to each of the attorneys pursuant to confidentiality agreements.

Employment Litigation:

On June 10, 2014, the Company announced that it had terminated Charles Dunleavy as Chief Executive Officer and as an employee of the Company for cause, effective June 9, 2014, and that Mr. Dunleavy had also been removed from his position as Chairman of the Board of Directors. On June 17, 2014, Mr. Dunleavy wrote to the Company stating that he had retained counsel to represent him in connection with an alleged wrongful termination of his employment. On July 28, 2014, Mr. Dunleavy resigned from the Board and the boards of directors of the Company's subsidiaries. The Company and Mr. Dunleavy have agreed to toll his alleged employment claims pending resolution of the shareholder litigation.

Regulatory Matters:

In August 2014, the Company provided documents to the Financial Industry Regulatory Authority (FINRA) in response to a July 9, 2014 request under NASDAQ Listing Rule 5250(a)(1) seeking information related to the internal investigation of the Special Committee of the Board of Directors. On November 6, 2014, FINRA sent a letter to the Company advising the Company that it had concluded its review of the matter and, as the Company believes is generally routine, that it was referring the matter to the Securities and Exchange Commission (SEC) for whatever action, if any, it deems appropriate. There are no outstanding requests to the Company from FINRA at this time. On February 4, 2015 the Company received a subpoena from the SEC requesting information related to the subject of the internal investigation of the Special Committee of the Board of Directors. The Company is in the process of providing information to the SEC in response to the subpoena.

Item 1A. RISK FACTORS

The discussion of our business and operations should be read together with the risk factors contained in Item 1A of our Annual Report on Form 10-K for the year ended April 30, 2014. These risk factors describe various risks and uncertainties to which we are or may become subject. These risks and uncertainties have the potential to affect our business, financial condition, results of operations, cash flows, strategies or prospects in a material and adverse manner. There have been no material changes in our risk factors from those disclosed in our Annual Report on Form 10-K filed for the year ended April 30, 2014.

Item 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

There have been no unregistered sales of equity securities or purchases of equity securities by the Company that are required to be disclosed.

Item 3. DEFAULTS UPON SENIOR SECURITIES

None.

Item 4. MINE SAFETY DISCLOSURES

None.

Item 5. OTHER INFORMATION

None.

OCEAN POWER TECHNOLOGIES, INC.**and****GEORGE H. KIRBY****EMPLOYMENT AGREEMENT**

This Employment Agreement ("Agreement") is made as of 29th day of December 2014 (the "Signature Date") by and between Ocean Power Technologies, Inc., a New Jersey corporation (the "Company"), and George H. Kirby III ("Executive").

1. Employment

The effectiveness of this Agreement is conditioned upon the completion of a background investigation of the Executive to the satisfaction of the Company's Board of Directors, which investigation is anticipated to conclude after the Signature Date and prior to the Effective Date as defined below. During the Employment Period (as defined in Section 4), the Company will employ Executive and Executive will serve as President and Chief Executive Officer ("CEO") and Member of the Board of Directors of the Company reporting directly to the Board of Directors of the Company (the "Board"). Executive and Company acknowledge and agree that Executive will begin such employment and provide such service on the 20th day of January 2015 (the "Effective Date").

2. Duties and Responsibilities of Executive on the Effective Date

(a) During the Employment Period (as defined in Section 4), Executive will devote substantially all of his professional time and efforts to the business of the Company, will act in the best interests of the Company and will perform with due care his duties and responsibilities. Executive's duties will include those normally incidental to the position of President and Chief Executive Officer as well as such additional duties as may be assigned to him by the Board.

(b) Executive agrees to cooperate fully with the Board and not engage directly or indirectly in any activity that materially interferes with the performance of Executive's duties. During the Employment Period, Executive will not hold outside employment, join, be a member of or serve on any corporate, civic or charitable boards or committees, or perform substantial personal services for parties unrelated to the Company without the advance written approval of the Nominating & Governance Committee of the Board.

(c) Executive represents and covenants to the Company that he is not subject to, or a party to, any employment agreement, non-competition covenant, non-solicitation agreement, nondisclosure agreement, or any other agreement, covenant, understanding or restriction that would prohibit Executive from executing this Agreement and fully performing his duties and responsibilities under this Agreement.

(d) Executive acknowledges and agrees that Executive owes the Company a duty of loyalty and that any obligations described in this Agreement are in addition to, and not in lieu of, any obligations Executive owes the Company as a matter of law.

3. Compensation

(a) Base Salary Commencing on the Effective Date and during the Employment Period, the Company will pay to Executive an annual base salary of \$360,000 (the "Base Salary"), which salary will be payable on not less than a monthly basis in conformity with the Company's customary payroll practices for executive salaries. Executive's Base Salary will be reviewed for adjustment by the Compensation Committee of the Board ("Compensation Committee") annually commencing at year-end 2015. For all purposes of this Agreement, Executive's Base Salary will include any portion thereof which Executive elects to defer under a nonqualified plan or arrangement if any.

(b) Short-Term Incentive Bonus During the Employment Period Executive will be eligible for an annual, discretionary, performance-based Short-Term Incentive ("STI") cash bonus (the "STI Bonus") targeted at 50% of Base Salary.

- (1) In October 2014 the Compensation Committee established the STI performance objectives for the Company's 2015 fiscal year as reflected in Exhibit 1 hereto, which also shall be applied to Executive's performance from the Effective Date through April 30, 2015.
 - (2) Commencing May 1, 2015 for the Company's 2016 fiscal year and for each fiscal year thereafter during the Employment Period, the Compensation Committee will establish the STI performance objectives for Executive and will communicate such objectives to Executive not less than thirty (30) days prior to the start of the fiscal year.
 - (3) The amount of the Executive's STI Bonus, if any, for the Company's 2015 fiscal year and each fiscal year thereafter will be determined by the Compensation Committee acting in its sole and complete discretion and will be pro-rated as appropriate or necessary.
 - (4) If, after the end of a fiscal year, the Company terminates this Agreement Executive pursuant to Section 6(b)(1) or (b)(3) or the Executive terminates this Agreement pursuant to Section 6(c)(1) then the Executive will be still be entitled to the full amount of the STI Bonus as determined by the Compensation Committee acting in its sole and complete discretion.
 - (5) If, within the last three months of the fiscal year, the Company terminates this Agreement Executive pursuant to Section 6(b)(1) or (b)(3) or the Executive terminates this Agreement pursuant to Section 6(c)(1) then the Executive will be still be entitled to a pro-rated amount of the STI Bonus as determined by the Compensation Committee acting in its sole and complete discretion.
 - (6) The Executive will not be entitled to any STI Bonus if this Agreement is terminated within the first nine months of a fiscal year (except for payment of the STI Bonus for the prior fiscal year as noted above).
 - (7) Any STI Bonus amounts will be paid as soon as administratively practicable after the Compensation Committee's decision.
-

(c) Long-Term Incentive Compensation On the Effective Date the Compensation Committee will grant Executive 180,000 restricted stock units (“RSUs”) that will vest, if at all, based upon satisfaction of certain Long-Term Incentive (“LTI”) performance criteria addressed below. If additional equity is approved by the Company’s shareholders at the 2015 annual general meeting, the Chairman of the Board of the Company will recommend for approval to the Compensation Committee and to the Board an additional RSU grant to the Executive that will vest, if at all, based upon the satisfaction of the same LTI criteria, although the number of such additional RSUs lies in the sole and complete discretion of the Compensation Committee. In October 2014 the Compensation Committee established the LTI performance objectives for the Company’s 2015 fiscal year as reflected in Exhibit 2 hereto, which also shall be applied to Executive’s initial RSU grant and additional RSU grant referred to above. Following these grants Executive will be eligible to participate in the Company’s LTI compensation programs in accordance with the decisions of the Compensation Committee.

(d) One-Time Starting Bonus On the Effective Date the Executive will be provided with a one-time starting bonus in the amount of \$50,000.

(e) Withholding Executive’s Base Salary, STI Bonus, one-time starting bonus, and other compensation payments hereunder will be subject to such payroll and other taxes, withholdings, assessments and deductions as may be required by applicable law.

4. Term of Employment

(a) The initial Term of this Agreement will be for the period beginning on the Effective Date and ending at midnight (Eastern Time) on the first anniversary of the Effective Date. The Term will be extended automatically for successive one-year periods unless either party gives the other written notice of its intent to terminate the Agreement not less than 90 days prior to the end of the then-current Term. The initial Term and any extensions are hereinafter referred to as the “Term.” The date on which this Agreement is terminated at the end of the Term or in accordance with Section 6 will be referred to herein as the “Termination Date.”

(b) The period commencing on the Effective Date and ending at the close of business on the Termination Date will constitute the “Employment Period.”

(c) Notwithstanding any other provision of this Agreement, this Agreement may be terminated at any time during the Employment Period in accordance with Section 6.

5. Benefits

Subject to the terms and conditions of this Agreement, Executive will be entitled to the following benefits during the Employment Period:

(a) Reimbursement of Business Expenses The Company agrees to promptly reimburse Executive for reasonable business-related expenses incurred in the performance of Executive's duties under this Agreement in accordance with Company policies.

(b) Benefit Plans and Programs To the extent permitted by applicable law, Executive (and where applicable, his plan-eligible dependents) will be eligible to participate in all benefit plans and programs, including improvements or modifications of the same, then being actively maintained by the Company for the benefit of its executive employees (or for an employee population which includes its executive employees), subject in any event to the eligibility requirements and other terms and conditions of those plans and programs, including, without limitation, 401(k) plan, medical and dental insurance, life insurance and disability insurance. The Company will not, however, by reason of this Section 5(b), have any obligation to institute, maintain, or refrain from changing, amending, or discontinuing any such benefit plan or program.

(c) Base of Operations Executive's base of operations will be at Company's offices located in Pennington, New Jersey. Executive may be required to travel and work for extended periods of time outside of his base of operations including but not limited to international travel.

(d) Relocation Assistance Executive will be provided with the following benefits for the purpose of Executive relocating his existing primary residence to a location within a reasonable daily commuting distance from the Company's base of operations identified above with the target date of completion such relocation being six months after the Effective Date.

- (1) Temporary housing expenses prior to relocation consisting of nightly accommodations in a hotel local to the Company's office and with which the Company has a negotiated rate or the equivalent cost for a corporate apartment if available; however, meals and other incident living expenses are **not** reimbursable by the Company.
- (2) Transportation costs between Executive's existing primary residence and the temporary housing accommodations referred to above;
- (3) Normal and customary costs both to sell the Executive's existing primary residence and to purchase the Executive's new primary residence; provided that any single cost in excess of \$20,000 be specifically justified; and provided further that "points" (or their equivalent) to "buy-down" a mortgage are **not** reimbursable by the Company.
- (4) Normal and customary costs to physically move the contents of Executive's home (excluding automobiles, boats or other similar items) from Executive's existing primary residence to Executive's new primary residence.

(e) Vacation Executive shall be entitled to four (4) weeks of paid vacation annually, which shall be prorated for 2015 based upon the Effective Date of this Agreement.

6. Termination of Agreement

(a) Automatic Termination in the Event of Death This Agreement will automatically terminate in the event of Executive's death.

(b) Company's Right to Terminate At any time during the Employment Period, the Company will have the right to terminate this Agreement for any of the following reasons:

- (1) Upon Executive's Disability (as defined below);
- (2) For Cause (as defined in Section 7); or
- (3) For any other reason whatsoever, in the sole and complete discretion of the Company.

(c) Executive's Right to Terminate At any time during the Employment Period, Executive will have the right to terminate this Agreement for:

- (1) Good Reason (as defined in Section 7); or
- (2) For any other reason whatsoever, in the sole and complete discretion of Executive. An election by Executive not to renew this Agreement at the end of the Term will constitute a termination of this Agreement by Executive under this subsection.

(d) Disability For purposes of this Agreement, "Disability" means that Executive has sustained sickness or injury that renders Executive incapable of performing substantially all of the duties and responsibilities required of Executive hereunder for a period of 90 consecutive calendar days or a total of 120 calendar days during any 12-month period. The existence of a Disability will be determined in the sole and complete discretion of the Board.

(e) Notices Any termination of this Agreement by the Company under Section 6(b) or by Executive under Section 6(c) will be communicated by a Notice of Termination to the other party. A "Notice of Termination" means a written notice that: (i) indicates the specific termination provision in this Agreement relied upon; and (ii) if the termination is by the Company for Cause or by Executive for Good Reason, sets forth in reasonable detail the facts and circumstances claimed to provide a basis for termination of Executive's employment under the provision so indicated. The Notice of Termination must specify the Termination Date. The Termination Date may be as early as 14 calendar days after the Notice of Termination is given but no later than 60 calendar days after the Notice of Termination is given, unless otherwise agreed to by the parties in writing.

(f) Resignation from Board Upon termination of this Agreement, Executive will immediately resign from the Board, unless otherwise agreed to in writing by the parties.

7. Severance Payments

(a) Termination by the Company. If the Company terminates this Agreement during the first year of the Employment Period pursuant to Sections 6(b)(1) or 6(b)(3), then the Company will pay Executive severance in the amount of one-half ($\frac{1}{2}$) of a year of Base Salary in a lump sum within 30 days after the Termination Date subject to all applicable withholding. If the Company terminates this Agreement after the first year of the Employment Period pursuant to Sections 6(b)(1) or 6(b)(3), then the Company will pay Executive severance in the amount of one (1) year of Base Salary in a lump sum within 30 days after the Termination Date subject to all applicable withholding. If termination occurs pursuant to Section 7(c) then the provisions in Section 7(c) apply in lieu of the provisions contained in this Section 7(a).

(b) Termination by Executive for Good Reason. If Executive terminates this Agreement during the first year of the Employment Period pursuant to Section 6(c)(1), then the Company will pay Executive severance in the amount of one-half ($\frac{1}{2}$) of a year of Base Salary in a lump sum within 30 days after the Termination Date subject to all applicable withholding. If Executive terminates this Agreement after the first year of the Employment Period pursuant to Section 6(c)(1), then the Company will pay Executive severance in the amount of one (1) year of Base Salary in a lump sum within 30 days after the Termination Date subject to all applicable withholding. If termination occurs pursuant to Section 7(c) then the provisions in Section 7(c) apply in lieu of the provisions contained in this Section 7(b).

(c) Termination after a Change in Control. If a Change in Control (as defined below) occurs and Executive is terminated pursuant to Section 6(b)(3) or terminates this Agreement during the Employment Period pursuant to Section 6(c)(1) within 90 days after such occurrence, then the Company will pay Executive severance in the amount of one (1) year of Base Salary in a lump sum within 30 days after the Termination Date subject to all applicable withholding.

(d) Termination upon Failure to Renew by the Company. In the event that this Agreement terminates at the end of the Term and is not renewed as a result of a decision by the Company not to renew this Agreement, prior to a decision by Executive not to renew this Agreement, the Company will pay Executive severance in the amount of one (1) year's Base Salary in a lump sum within 30 days after the Termination Date subject to all applicable withholding.

(e) Additional Benefits. If the Company is required to pay Executive severance pursuant to Section 7(a), 7(b), 7(c), or 7(d), then:

- (1) Such severance will be paid in addition to any other payments the Company makes to Executive (including, without limitation, salary, any STI bonus, any LTI compensation, benefits, and expense reimbursements) in discharge of the Company's obligations to Executive under this Agreement with respect to periods ending coincident with or prior to the Termination Date.
-

- (2) Payments under Sections 7(a), 7(b), 7(c), or 7(d) will be in lieu of any severance benefits otherwise due to Executive under any severance pay plan or program maintained by the Company that covers its employees and/or its executives except to the extent otherwise expressly provided in such severance pay plan or program.
- (3) The expiration date of any options held by Executive will be extended to a date that is 90 days after the Termination Date.

In addition to the foregoing benefits but only in the event the Company is required to pay Executive severance by the express terms of Section 7(c), to the extent Executive has not previously vested in such rights (whether in accordance with Section 8 hereof or otherwise), Executive will become fully vested in all of the rights and interests held by Executive under the Company's stock and other equity plans as of the Termination Date, including without limitation any stock options, restricted stock, restricted stock units, performance units, and/or performance shares.

(f) Cause For the purposes of this Agreement, "Cause" means the occurrence or existence, prior to occurrence of circumstances constituting Good Reason, of any of the following events during the Employment Period:

- (1) Executive's gross negligence or material mismanagement in performing, or material failure or inability (excluding as a result of death or Disability) to perform, Executive's duties and responsibilities as described herein or as lawfully directed by the Board;
 - (2) Executive's willful misconduct or material dishonesty against the Company or any of its affiliates (including theft, misappropriation, embezzlement, forgery, fraud, falsification of records, or misrepresentation) or any act that results in material injury to the reputation, business or business relationships of the Company or any of its affiliates;
 - (3) Executive's material breach of: (i) this Agreement; (ii) any fiduciary duty owed by Executive to the Company or its affiliates; or (iii) any written workplace policies applicable to Executive (including the Company's code of conduct and policy on workplace harassment) whether adopted on or after the date of this Agreement, provided that the Board gives Executive written notice of such breach within 90 calendar days from the first date that the Board is aware, or reasonably should be aware, of such breach.
 - (4) Executive's having been convicted of, or having entered a plea bargain, a plea of *nolo contendere* or settlement admitting guilt for, any felony, any crime of moral turpitude, or any other crime that could reasonably be expected to have a material adverse impact on the Company's or any of its affiliates' reputations; or
 - (5) Executive's having committed any material violation of any federal law regulating securities (without having relied on the advice of the Company's attorney) or having been the subject of any final order, judicial or administrative, obtained or issued by the Securities and Exchange Commission, for any securities violation involving fraud, including, for example, any such order consented to by Executive in which findings of facts or any legal conclusions establishing liability are neither admitted nor denied.
-

(g) **Good Reason** For the purposes of this Agreement, “Good Reason” means the occurrence, prior to the occurrence of circumstances constituting Cause, of any of the following events during the Employment Period without Executive’s consent:

- (1) Any material breach by the Company of this Agreement, provided that Executive gives the Board written notice of such breach within 90 days from the first date that he is aware, or reasonably should be aware, of such breach and such breach is not remedied within 30 days of the Board’s receipt of such written notice;
- (2) A material reduction in Executive’s authority or job duties, responsibilities and requirements that is inconsistent with Executive’s position as President and Chief Executive Officer of the Company and Executive’s prior authority, duties, responsibilities and requirements;
- (3) A material reduction in the Executive’s Base Salary or STI Bonus opportunity unless a proportionate reduction is made to the Base Salary or business opportunity of all of the Company’s executives; or
- (4) Any requirement that Executive move his primary residence from the Pennington, New Jersey metropolitan area.

(h) **Exclusive Payments** Except as provided above, no severance or other payment in the way of severance will be made to Executive upon termination of this Agreement.

8. Change of Control

(a) If a Change of Control occurs during the Employment Period, Executive will thereupon become 100% vested in all of the rights and interests then held by Executive under the Company’s stock and other equity plans (to the extent not already vested), including without limitation any stock options, restricted stock, restricted stock units, performance units, and/or performance shares.

(b) **Change of Control** For the purposes of this Agreement, “Change of Control” means that, after the Effective Date, the following two events have occurred: (1) the Executive (i) is requested to resign by the Company, (ii) is terminated by the Company, (iii) is demoted or his responsibilities are materially changed by the Company, or (iv) events or circumstances have occurred that constitute Good Reason; **and** (2) one of the following has occurred: (i) any person or group of affiliated or associated persons acquires more than 50% of the voting power of the Company; (ii) the consummation of a sale of all or substantially all of the assets of the Company; (iii) the dissolution of the Company; (iv) a majority of the members of the Board are replaced during any 12-month period; or (v) the consummation of any merger, consolidation, or reorganization involving the Company in which, immediately after giving effect to such merger, consolidation or reorganization, less than 50.1% of the total voting power of outstanding stock of the surviving or resulting entity is then “beneficially owned” (within the meaning of Rule 13d-3 under the Securities Exchange Act of 1934, as amended) in the aggregate by the stockholders of the Company immediately prior to such merger, consolidation or reorganization.

9. Conflicts of Interest

Executive agrees that he will promptly disclose to the Board any conflict of interest involving Executive upon Executive becoming aware of such conflict. For sake of clarity but not be construed as an exclusive list of such conflicts, Executive's ownership of any interest in any business organization that competes directly or indirectly with the Company in the wave energy industry anywhere in the world will be deemed to constitute a conflict of interest.

10. Confidentiality

The Company agrees to provide Executive valuable Confidential Information of the Company and of third parties who have supplied such information to the Company. In consideration of such Confidential Information and other valuable consideration provided hereunder, Executive agrees to comply with this Section 10.

(a) Confidential Information For the purposes of this Agreement, "Confidential Information" means, without limitation and regardless of whether such information or materials are expressly identified as confidential or proprietary: (i) any and all material non-public, confidential or proprietary information or work product of the Company or its affiliates; (ii) any non-public information that gives the Company or its affiliates a material competitive business advantage or the opportunity of obtaining such advantage; (iii) any material non-public information the disclosure or improper use of which is reasonably expected to be materially detrimental to material interests of the Company or its affiliates; (iv) any material trade secrets of the Company or its affiliates; and (v) any other material non-public information of or regarding the Company or any of its affiliates, or its or their past, present or future, direct or indirect, potential or actual officers, directors, employees, owners, or business partners, including but not limited to information regarding any of their material businesses, operations, assets, liabilities, properties, systems, methods, models, processes, results, performance, investments, investors, financial affairs, future plans, business prospects, acquisition or investment opportunities, strategies, business partners, business relationships, contracts, contractual relationships, organizational or personnel matters, policies or procedures, management or compensation matters, compliance or regulatory matters, as well as any technical, seismic, industry, market or other data, studies or research, or any forecasts, projections, valuations, derivations or other analyses, performed, generated, collected, gathered, synthesized, purchased or owned by, or otherwise in the possession of, the Company or its affiliates or which Executive has learned of through his employment with the Company. Confidential Information also includes any non-public, confidential or proprietary information about or belonging to any third party that the Company or its affiliates have agreed in writing to keep confidential. Notwithstanding the foregoing, Confidential Information does not include any information which is or becomes generally known by the public other than as a result of Executive's actions or inactions.

(b) Protection Executive promises, except in the regular course of the Company's business or as required by law: (i) to keep Confidential Information, and all documentation, materials and information relating thereto, strictly confidential; (ii) not to use the Confidential Information for any purpose other than as required in connection with fulfilling his duties as President and Chief Executive Officer for the benefit of the Company; and (iii) to return to the Company all documents and electronically stored information containing Confidential Information in Executive's possession upon separation from the Company for any reason.

(c) Disclosure Required By Law If Executive is legally required to disclose any Confidential Information, Executive will promptly notify the Company in writing of such request or requirement so that the Company may seek an appropriate protective order or other relief. Executive agrees to cooperate with and not to oppose any effort by the Company to resist or narrow such request or to seek a protective order or other appropriate remedy. In any case, Executive will: (i) disclose only that portion of the Confidential Information that, according to the advice of Executive's counsel, is required to be disclosed (and Executive's disclosure of Confidential Information to Executive's counsel in connection with obtaining such advice will not be a violation of this Agreement); (ii) use reasonable efforts to obtain assurances that such Confidential Information will be treated confidentially; and (iii) promptly notify the Company in writing of the items of Confidential Information so disclosed.

(d) Third-Party Confidentiality Agreements To the extent that the Company possesses any Confidential Information which is subject to any confidentiality agreements with, or obligations to, third parties, Executive will comply with all such agreements or obligations in full.

(e) Survival The covenants made by Executive in this Section 10, will survive termination of this Agreement for five (5) years following the Termination Date.

11. Non-Competition & Non-Solicitation

Executive acknowledges that the Company has invested substantial time, money and resources in the development and retention of its Confidential Information, customers, accounts and business partners, and further acknowledges that during the course of Executive's employment with the Company Executive has had and will have access to the Company's Confidential Information and will be introduced to existing and prospective customers, suppliers, accounts and business partners of the Company. Executive acknowledges and agrees that any and all goodwill associated with any existing or prospective customer, supplier, account or business partner belongs exclusively to the Company, including, but not limited to, any goodwill created as a result of direct or indirect contacts or relationships between Executive and any existing or prospective customers, supplier's accounts or business partners. Additionally, the parties acknowledge and agree that Executive possesses skills that are special, unique or extraordinary and that the value of the Company depends upon his use of such skills on its behalf.

In recognition of the foregoing, Executive agrees that:

(a) During the Term of this Agreement, and for a period of one (1) year thereafter, Executive may not, without the prior written consent of the Company, (whether as an employee, agent, servant, owner, partner, consultant, independent contractor, representative, stockholder, or in any other capacity whatsoever) perform any work anywhere in the world related in any way to the wave energy industry on behalf of any entity or person other than the Company (including Executive).

(b) During the Term of this Agreement, and for a period of one (1) year thereafter, Executive may not entice, solicit or encourage any Company employee to leave the employ of the Company or any independent contractor to sever its engagement with the Company, absent prior written consent from the Company.

(c) During the Term of this Agreement, and for a period of one (1) year thereafter, Executive may not, directly or indirectly, entice, solicit or encourage any customer, prospective customer or supplier of the Company to cease doing business with the Company, reduce its relationship with the Company or refrain from establishing or expanding a relationship with the Company.

12. Withholdings

The Company may withhold and deduct from any payments made or to be made pursuant to this Agreement all federal, state, local and other taxes as may be required pursuant to any applicable law or governmental regulation or ruling and any other deductions consented to in writing by Executive.

13. Severability

It is the desire of the parties hereto that this Agreement be enforced to the maximum extent permitted by law and should any provision contained herein be held unenforceable by a court of competent jurisdiction or arbitrator (pursuant to Section 15), the parties hereby agree and consent that such provision will be reformed to create a valid and enforceable provision to the maximum extent permitted by law; provided, however, if such provision cannot be reformed, it will be deemed ineffective and deleted from this Agreement without affecting any other provision of this Agreement.

14. Title and Headings; Construction

Titles and headings to Sections and paragraphs are for the purpose of reference only and will in no way limit, define or otherwise affect the provisions of this Agreement. Any and all Exhibits referred to in this Agreement are, by such reference, incorporated herein and made a part hereof for all purposes. The words "herein", "hereof", "hereunder" and other compounds of the word "here" will refer to the entire Agreement and not to any particular provision hereof. Both parties to this Agreement have approved all language in this Agreement and the language in this Agreement will not be strictly construed in favor of or against either party.

15. Arbitration; Injunctive Relief; Attorneys' Fees

(a) Subject to Section 15(b), any dispute, controversy or claim between Executive and the Company arising out of or relating in any way to: (i) this Agreement, (ii) Executive's employment with Company, or (iii) the termination of either (other than with respect to claims arising exclusively under one or more of the Company's employee benefit plans subject to ERISA), will be finally settled by confidential arbitration before the American Arbitration Association, at a location in New Jersey and as near as possible to Pennington, in accordance with its then-existing rules for the resolution of employment disputes. The arbitrator's award will be final and binding on both parties.

(b) Notwithstanding Section 15(a), an application for emergency, temporary, or preliminary injunctive relief by either party will not be subject to arbitration under this Section 15; provided, however, that the remainder of any such dispute (beyond the application for emergency, temporary, or preliminary injunctive relief) will be subject to arbitration under this Section 15. Executive acknowledges that Executive's violation of Sections 9, 10 and/or 11 of this Agreement may cause irreparable harm to the Company. Executive agrees that the Company will be entitled as a matter of right to specific performance of Executive's obligations under Sections 9, 10 and/or 11 and an emergency, temporary or preliminary injunction from any court of competent jurisdiction restraining any violation or further violation of such agreements by Executive or others acting on Executive's behalf, without posting a bond. The Company's right to injunctive relief will be cumulative and in addition to any other remedies provided by law or equity.

(c) Each side will share equally the cost of the arbitrator and bear its own costs and attorneys' fees incurred in connection with any arbitration, unless a statutory claim authorizing the award of attorneys' fees is at issue, in which event the arbitrator may award a reasonable attorneys' fee in accordance with the jurisprudence of that statute.

(d) Nothing in this Section 15 will prohibit a party to this Agreement from: (i) instituting litigation to enforce any arbitration award; or (ii) joining another party to this Agreement in litigation initiated by a person who is not a party to this Agreement.

16. Governing Law

THIS AGREEMENT WILL BE GOVERNED BY AND CONSTRUED IN ACCORDANCE WITH THE LAWS OF THE STATE OF NEW JERSEY, WITHOUT REFERENCE TO PRINCIPLES OF CONFLICT OF LAWS. THE EXCLUSIVE VENUE FOR THE RESOLUTION OF ANY DISPUTE RELATING TO THIS AGREEMENT OR EXECUTIVE'S EMPLOYMENT (THAT IS NOT SUBJECT TO ARBITRATION UNDER SECTION 15 FOR ANY REASON) SHALL BE IN THE STATE AND FEDERAL COURTS LOCATED IN NEW JERSEY AND NEAREST TO PENNINGTON AND THE PARTIES HEREBY EXPRESSLY CONSENT TO THE JURISDICTION OF THOSE COURTS.

17. Entire Agreement and Amendment

This Agreement contains the entire agreement of the parties with respect to Executive's employment and the other matters covered herein (except to the extent that other agreements are specifically referenced herein); moreover, this Agreement supersedes all prior and contemporaneous agreements and understandings, oral or written, between the parties hereto concerning the subject matter hereof and thereof. This Agreement may be amended, waived or terminated only by a written instrument executed by both parties hereto.

18. Survival of Certain Provisions

Wherever appropriate to the intention of the parties, the respective rights and obligations of the parties, including but not limited to the rights and obligations set forth in Sections 6 through 15, will survive any termination or expiration of this Agreement for any reason.

19. Waiver of Breach

No waiver by either party of a breach of any provision of this Agreement by the other party, or of compliance with any condition or provision of this Agreement to be performed by such other party, will operate or be construed as a waiver of any subsequent breach by such other party or any similar or dissimilar provision or condition at the same or any subsequent time. The failure of either party to take any action by reason of any breach will not deprive such party of the right to take action at any time while such breach continues.

20. Assignment

Neither this Agreement nor any rights or obligations hereunder will be assignable or otherwise subject to hypothecation by Executive (except by will or by operation of the laws of intestate succession) or by the Company, except as follows. This Agreement shall bind any successor of the Company, its assets or its businesses (whether direct or indirect, by purchase, merger, consolidation or otherwise), in the same manner and to the same extent that the Company would be obligated under this Agreement if no succession had taken place. In the case of any transaction in which a successor would not by the foregoing provision or by operation of law be bound by this Agreement, the Company shall require such successor expressly and unconditionally to assume and agree to perform the Company's obligations under this Agreement, in the same manner and to the same extent that the Company would be required to perform if no such succession had taken place. The term "Company," as used in this Agreement, shall mean the Company as hereinbefore defined and any successor or assignee to the business or assets which by reason hereof becomes bound by this Agreement.

21. Notices

Notices provided for in this Agreement will be in writing and will be deemed to have been duly received: (a) when delivered in person or sent by facsimile with receipt confirmed; (b) on the first business day after such notice is sent by recognized express overnight courier service; or (c) on the third business day following deposit in the United States mail, registered or certified mail, return receipt requested, postage prepaid and addressed, to the following address, as applicable:

- (a) If to Company, addressed to: 1590 Reed Road, Pennington, New Jersey, 08534; Attn: Chairman, Board of Directors.
- (b) If to Executive, addressed to: 16 Goldfield Road, Killingworth, Connecticut, 06419, or
- (c) To such other address as either party may have furnished to the other party in writing in accordance with this Section 21.

22. Counterparts

This Agreement may be executed in any number of counterparts, each of which when so executed and delivered will be an original, but all such counterparts will together constitute one and the same instrument. Each counterpart may consist of a copy hereof containing multiple signature pages, each signed by one party, but together signed by both parties.

23. Other Definitions

The parties agree that as used in this Agreement the following terms will have the following meanings: an “affiliate” of a person means any person directly or indirectly controlling, controlled by, or under common control with, such person; the terms “controlling, controlled by, or under common control with” mean the possession, directly or indirectly, of the power to direct or influence or cause the direction or influence of management or policies (whether through ownership of securities or other ownership interest or right, by contract or otherwise) of a person; the term “person” means a natural person, partnership (general or limited), limited liability Company, trust, estate, association, corporation, custodian, nominee, or any other individual or entity in its own or any representative capacity, in each case, whether domestic or foreign.

24. Full Settlement

The Company's obligations, if any, to make payments to Executive under Section 7 will not be reduced by any failure of Executive to seek other employment. The payments under Section 7 will not be reduced if Executive obtains other employment.

25. Indemnification and Directors and Officers Insurance

In Executive's capacity as a director, officer, or employee of the Company or serving or having served any other entity as a director, officer, or employee at the Company's request, Executive shall be indemnified and held harmless by the Company to the fullest extent allowed by law, the Company's Certificate of Incorporation and Bylaws, from and against any and all losses, claims, damages, liabilities, expenses (including legal fees and expenses), judgments, fines, settlements and other amounts arising from any and all claims, demands, actions, suits or proceedings, civil, criminal, administrative or investigative, in which Executive may be involved, or threatened to be involved, as a party or otherwise by reason of Executive's status, which relate to or arise out of the Company and such other entities, their assets, business or affairs, if in each of the foregoing cases, (i) Executive acted in good faith and in a manner Executive believed to be in the best interests of the Company, and, with respect to any criminal proceeding, had no reasonable cause to believe Executive's conduct was unlawful, and (ii) Executive's conduct did not constitute gross negligence or willful or wanton misconduct. The Company shall advance all reasonable expenses incurred by Executive in connection with the investigation, defense, settlement or appeal of any civil or criminal action or proceeding referenced in this Section, including but not necessarily limited to, reasonable fees of legal counsel, expert witnesses or other litigation-related expenses.

Executive and the Company have executed this Agreement to be effective for all purposes as of the Effective Date.

EXECUTIVE:

/s/ George H. Kirby III

George H. Kirby III

OCEAN POWER TECHNOLOGIES, INC.:

/s/ Terence J. Cryan

Terence J. Cryan
Chairman of the Board
Ocean Power Technologies, Inc.

CERTIFICATION PURSUANT TO SECTION 302 OF SARBANES-OXLEY ACT

I, George H. Kirby III, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Ocean Power Technologies, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or other persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

CERTIFICATION PURSUANT TO SECTION 302 OF SARBANES-OXLEY ACT

I, Mark A. Featherstone, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Ocean Power Technologies, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or other persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

**CERTIFICATION PURSUANT TO 18 U.S.C. SECTION 1350,
AS ADOPTED PURSUANT TO
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002**

In connection with the Quarterly Report on Form 10-Q of Ocean Power Technologies, Inc. (the "Company") for the period ended January 31, 2015, as filed with the Securities and Exchange Commission on the date hereof (the "Report"), the undersigned, George H. Kirby III, Chief Executive Officer of the Company, hereby certifies, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that, to the best of my knowledge:

- (1) The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended; and
- (2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.
